Dear Colleagues,

Thank you for your liaison [SG15–LS187](#).

We would like to inform you that the IEEE 802.1 P802.1CMde project (*Enhancements to Fronthaul Profiles to Support New Fronthaul Interface, Synchronization, and Syntonization Standards*) has initiated a Standards Association ballot on Draft 2.0. Please find the draft enclosed. We would be grateful for your comments on the draft. Ballot comment resolution will be conducted during the January 2020 IEEE 802.1 Interim session, and potentially on one or more of the weekly calls of the TSN Task Group.

IEEE 802.1 meets again January 20-24, 2020 in Geneva, Switzerland, and March 16-20, 2020 in Atlanta, GA, USA. IEEE 802.1 face-to-face meeting details are available at: <http://www.ieee802.org/1/meetings>. The details on TSN TG calls are available at <https://1.ieee802.org/tsn-calls>.

Respectfully submitted,
Glenn Parsons
Chair, IEEE 802.1 Working Group
