# FOR TELCOS

✓ Our built-in-house solution delivers truly end-to-end digital device connectivity that's **quick and easy to integrate**

✓ We **save you time, money and minimise risk** by helping you re-take control of an integral part of your business

✓ We're digital pioneers and we understand the challenges facing MNOs – we offer you the tools that we built for our own use – **tools that go far beyond the GSMA standard**

✓ Don't get caught out by suppliers that promise a **complete digital SIM ecosystem**, but only offer an analogue approach in a digital world

# A GLOBAL ONE-STOP SHOP FOR MNOs

We're unique in developing and operating our own GSMA-compliant eSIM, Remote SIM Provisioning & cloud-based Entitlements Server platform. That means we can deliver a secure, flexible and independent service that helps you harness the full potential of emerging technologies.

# DON'T JUST TAKE OUR WORD FOR IT

We're proud to have been a leading eSIM partner with Apple since 2016

In 2021, we became one of the first three GSMA Discovery Partners on the planet

In 2021, Counterpoint hailed us as the most complete end-to-end eSIM platform

In 2021, we were announced as a Kaleido Champion eSIM Connectivity Provider

“Truphone provided us a skillful, technical response to all our questions and helped us define an effective and swift solution”

“Unitel is a very dynamic, growth focused company and agility is our identity. We look for the same energy, the same identity from our partners. Truphone has fulfilled our expectations.”

“Our decision to partner with Truphone for our eSIM journey was not only for the functionality, but also for their enthusiasm, knowledge and drive.”

The eSIM revolution is already happening and the benefits are clear.

If you're looking for a world-leading Remote SIM Provisioning platform, our experienced expert teams are on hand to support your digital transformation and put the power of the eSIM revolution in your hands.
