ASO/AC Activities:
Global Policy Management

- A Global Policy
  - "Global policies are defined within the scope of this agreement as Internet number resource policies that have the agreement of all RIRs [Regional Internet Registries] according to their policy development processes and ICANN, and require specific actions or outcomes on the part of IANA or any other external ICANN-related body in order to be implemented."
  - Global policies determine number allocation policy for requests that involve IANA
  - Global policies may also specify regional number allocation policy

Global Policy Development
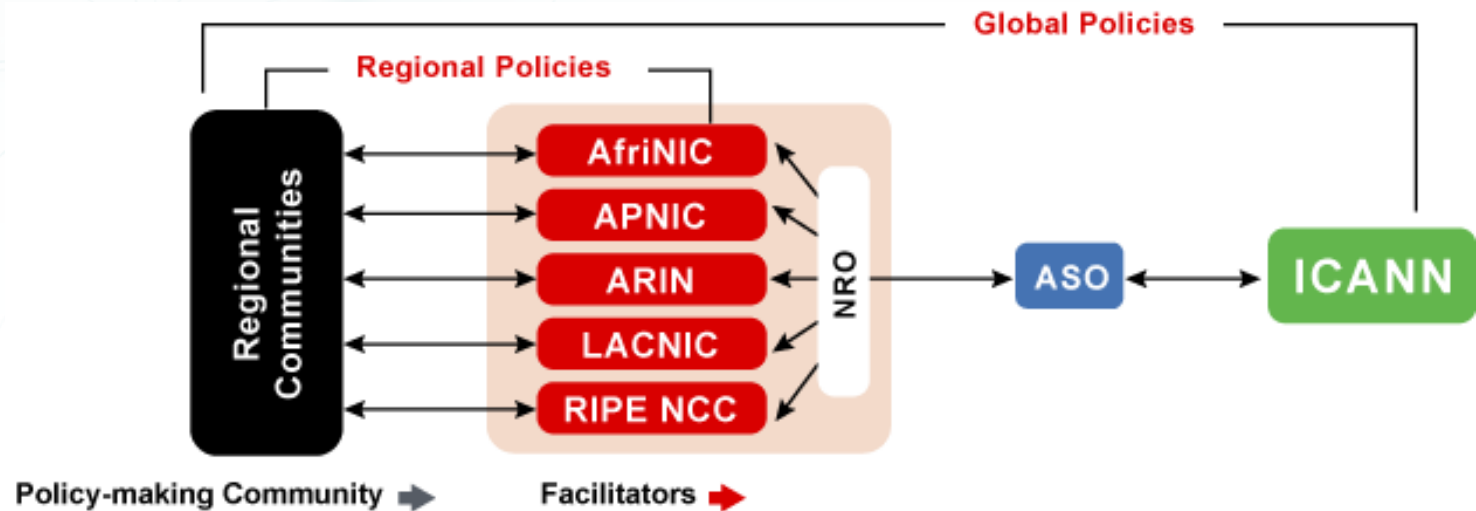

- Each region has its own policy development process
  - All open, transparent, and bottom-up
- Global policy proposals are submitted in all 5 regions
- Each region follows its own process
- It then gets passed to the NRO for review
- And forwarded to the ICANN board

ASO/AC Activities:
Global Policy Management

○ Policy Proposal Facilitators Team (PPFT) 2018 was appointed in 1st meeting of 2018.
  ○ 1 member from each region
  ○ From LACNIC, *Jorge Villa* in the team.
○ There are currently no Global Policy Proposals

We've been observing each RIR's policy forum if new global policy is proposed
