

Dear SO/AC Chairs,

please be so kind to find the proposed draft charter of the Cross Community Working Group on Internet Governance attached to this message.

The working group asks that this draft charter be considered by your Supporting Organisations and Advisory Committees for the official creation of the CCWG. As a reminder, this is a follow-up to the work that was cast aside whilst input to the NetMundial meeting was needed at short notice.

The draft Charter is the result of discussion held in Singapore regarding the future of the working group as well as a Team of individuals from several SOs and AC drawing on their combined experience in drafting charters.

It is hoped that the issue of chartering this WG can be added to the agenda of all SOs and ACs that will meet in London and that the WG will receive your feedback by the end of the ICANN meeting, on 26 June 2014.

Of particular importance you might wish to look at the votes and the (lack of) normalisation on a per SO/AC basis. The charter drafting team could not reach consensus on whether normalisation of votes was needed or not. We leave it to your community to provide its feedback on preference.

For any questions, please do not hesitate to contact Rafik Dammak or myself, the current interim coordinators of the WG.
Kind regards,

Olivier MJ Crépin-Leblond
CCWG on Internet Governance Coordinator
