Dear Nigel

Thank you for the update.

In terms of process, this is an informal request in order that we may consider your perspectives when responding to the letter we received from Katrina and Patricio.

Would a further 7 days be sufficient for you to obtain input from the ICANN Ombudsman department?

Best wishes,
Alejandra

Dear Alejandra

I acknowledge receipt of the letter from the ccNSO Council which letter required a response from me by the end of today. In view of its contents, I have recently raised the matter with, and am now awaiting additional input from the ICANN Ombudsman department, so I trust that Council will be patient for some more days for a more detailed reply to the concerns and questions that you have raised with me until after I have received their advice.

In the meantime however, may I please ask Council to forward me all documentation (e.g extract from ccNSO Rules/bylaws, adopted Guidelines etc) documenting the process that is being followed by Council here, particularly in respect of the requirements it has in respect of timelines, deadlines etc, and the role of Council in such determinations.

As I am myself, a former Board member, I do not recall having had the benefit of seeing any documents covering community members' participation in ICANN Public Fora and/or the ccNSO members' meeting with Board Members so this would be helpful. I would very much appreciate that Council provides any such information to inform the ongoing discussion I am having with the Ombudsman's office, particularly in respect of any Chatham House Rules or similar expectations. Please note I have a copy of the ICANN Expected Standards.

Kind regards
