MOMENT OF SILENCE

On 11 March 2011, at 14:46 local time, a 9.1 magnitude earthquake struck in the Pacific ocean off the northeast coast of Japan's Honshu island. The earthquake, known as the Great East Japan Earthquake triggered a massive Tsunami with waves that rose to heights of up to 40 meters and travelled up to 10km inland. This was the most powerful earthquake ever recorded in Japan and the fourth most powerful earthquake in the world.

An estimated 20,000 people were lost and close to 500,000 people were forced to evacuate

In remembrance of the lives lost and affected by the Great East Japan Earthquake, we will now observe a moment of silence.
