NEW: Invitation to Provide Feedback on the ICANN Board's Proposed Public Interest Framework

Executive: Sally Costerton, Senior Vice President, Global Stakeholder Engagement

FOR: All Community Leaders

INFORMATION SHARING

From 18 September – 18 October 2019, a community consultation is taking place on the global public interest framework proposed by the ICANN Board. In reviewing the proposal, the ICANN Board is asking the ICANN community to consider the following questions for input to the ICANN Board:

1. What are your thoughts on the proposed framework approach? Do you have any suggestions for how it could be improved?
2. What are your thoughts on the proposed approach for decisions in the ICANN ecosystem to be accompanied by a consideration of their impact on the global public interest (as well as an explanation regarding what is meant by the GPI in the specific case)?
3. How do you see this working for the Supporting Organization (SO), Advisory Committee (AC), constituency, group, review team, or cross-community working group (CCWG) to which you are contributing?

The global public interest is central to many of ICANN's primary governance documents, and the ICANN Board hopes to play a role in facilitating a bottom-up, community-driven process to develop a framework as a toolkit for the ICANN community to consider the global public interest. These considerations would not change the process by which decisions are made but could instead serve as tools for the community to reinforce the commitment to the public interest and to demonstrate how specific recommendations, advice, and public comments are in the global public interest. This includes the ICANN community guiding the ICANN Board about the public interest determination the latter must make in its decisions.

To learn more about the framework, please read the [discussion paper](#). Community feedback is welcome by **Friday, 18 October 2019 via email at gpi toolkit@icann.org**. After the community consultation, there will be a public session at ICANN66, followed by a Public Comment proceeding.

NEW: Nominating Committee Review Detailed Implementation Plan

Executive: Theresa Swinehart, Senior Vice President, Multistakeholder Strategy and Strategic Initiatives

FOR: All Community Leaders

INFORMATION SHARING

The Nominating Committee Review Implementation Working Party (NomComRIWG) has submitted a [Detailed Implementation Plan](#) to the ICANN Board Organizational Effectiveness Committee (OEC). The OEC will review the detailed implementation plan and make its recommendation to the ICANN Board. ICANN Board action is expected during ICANN66.

If the ICANN Board accepts the detailed implementation plan, implementation will start shortly after, with the [NomComRIWG](#) overseeing the process per the [ICANN Board resolution from 14 March](#). Implementation will require community input, including but not limited to Public Comment and possible changes to the ICANN Bylaws. The NomComRWIG expects the implementation of all 27 recommendations to last between 30 and 36 months with an impact on the NomCom and, by extension, the ICANN community.

Executive: Sally Costerton, Senior Vice President, Global Stakeholder Engagement

FOR: All Community Leaders

INFORMATION SHARING

I know everyone is busy preparing for ICANN66, but I want to make you aware that you are welcome and encouraged to come and do outreach at the ICANN Engagement booth. The ICANN Engagement booth is in place so that Newcomers, ICANN org members, and ICANN community members to engage in discussions. It is supported by volunteers from the ICANN community, including members

of Supporting Organizations and Advisory Committees. It would be beneficial to have the presence of seasoned ICANN community members to share their knowledge. We would like to offer one-hour slots during ICANN66. [Sign up here.](#)

Sincerely,
Deborah Escalera
