- Policy Status Report: Uniform Domain Name Dispute Resolution Policy (UDRP)
- Root Zone Update Process Study
- Root Zone Label Generation Rules Version 5 (RZ-LGR-5)

ICANN74 Resources

Design/Translation/Print Deadlines

TOMORROW: FRIDAY, 8 APRIL 2022: DESIGN DEADLINE.

If you require design assistance for your publication, you need to provide all the text, images, layout, and publication type/size requirements (i.e. newsletter vs. 1-pager vs. trifold, etc.). You will receive a maximum of 2 iterations of the publication. Please provide everything by **Friday, 8 April**.

Due to budget constraints, please keep in mind that all materials, new or updated, need to be evergreen.

FRIDAY, 29 APRIL 2022: TRANSLATION DEADLINE.

If your publication requires translation, please provide the **final** material(s) by **Friday, 29 April**. This ensures that there is enough time to translate the publication by the below print deadline. If your materials require design assistance (outlined above), please note that the final materials will have to be complete, including the edit/approval process, by this deadline in order to be translated.

FRIDAY, 6 MAY 2022: PRINT DEADLINE ONLY.

If you only need your publication printed, meaning your publication is ready to send directly to the printer and needs no translation or design/layout modifications, please provide the file to us along with the quantity you want printed and dimensions of the publication by **Friday, 6 May**.

Please send materials to chantelle.doerksen@icann.org.

[Registration](#) for ICANN74 (13-16 June 2022) in The Hague, Netherlands is now open. ICANN74 will take place as a hybrid event to accommodate both in-person and virtual participation.

While the [ICANN74 Policy Forum](#) presents the first opportunity for the community to come together in more than two years, the health and safety of all community members and staff continues to be ICANN's key priority.

Webinars

NEXT WEEK: ICANN Hosts Webinar on UN and ITU Discussions Affecting the Internet

ICANN has announced that it will hold a webinar on issues impacting the Internet that are being discussed at the United Nations (U.N.) and the International Telecommunication Union (ITU). The event will take place on **Tuesday, 12 April 2022 at 20:00 UTC**. Please [register](#) for the webinar.

Information Sharing

NEW: ICANN Launches the Special Interest Forum on Technology Discussion Platform

ICANN is pleased to announce the launching of a new discussion platform, Special Interest Forum on Technologies (SIFT). The platform will provide the ICANN community a specific place online to discuss thematic and technical issues, and to promote knowledge sharing and discussions on the evolving Identifiers technologies and their impact on ICANN's mission.

NEW: DNSSEC Algorithm Use in 2022

The ICANN Office of the Chief Technology Office (OCTO) has published OCTO-033: DNSSEC Algorithm Use in 2022. This document gives a brief overview of the algorithms, key sizes, and other options used in DNSKEY records in the DNS near the beginning of 2022.

REMINDER: Request for Input - GNSO Statement of Interest

The GNSO Council has recently embarked on a review of its Statement of Interest (SOI) requirements to determine whether these are still fit for purpose, and if not, what updates should be considered. To this end, the GNSO SOI Task Force (TF) was formed. As part of its assignment, the TF is reaching out to the ICANN community to solicit input on the current use and experience with SOIs as well as suggestions for possible improvements.

We understand that some of you may use the SOI, either in its current form or a modified format, for your own purposes. We would be interested to hear about those experiences as well as any lessons learned that may help inform our recommendations. You are encouraged to share this information with your respective groups.

To provide input, please complete the following [survey](#) by **Wednesday, 4 May** at the latest.

Your input will be much appreciated!

REMINDER: ICANN's 2022 Middle East DNS Forum to Take Place Virtually in May

ICANN org's eighth Middle East Domain Name System (DNS) Forum will take place virtually from **Monday-Wednesday, 16-18 May 2022** and will offer a closer look at the evolving DNS ecosystem from a technical and policy perspective. It will have a special focus on regional challenges and opportunities for growth.
