Meeting Notes

The WG members continued the discussion on the document and the recommendations to be proposed for public comment. Updated document *IDN Guidelines 4.0 20161027* was discussed.

1. **Introduction of the Guidelines document.** The updates in the introduction were reviewed. It was agreed that the last sentence in Section 1.2 should be deleted as it is a repetition. Also, the pointer to the version in the Introduction section 1. should be removed, as that is covered in 1.2. Finally, section 1.2 should be titled and "Document Version".

2. **IDN Variants.** The group drafted the recommendation on IDN variants, based on the previous discussion. The updated version of the recommendation is to be added in the document for further discussion.

3. **Interactions at ICANN 57.** Both the presentations were reviewed by the participants. In the introduction, the circular reference to contracts needed to be addressed. Further, recommendation 7(a) needed to be updated to the latest version. Also, recommendation 10 should be updated to include "language and script".
