Note: Dual Occupancy enforced. CA leads ceremony. Only CAs, IWs, or SAs can enter ceremony room and/or escort other participants. Only CA+IW can enter safe room and/or escort other participants. CAs, SAs or IWs may let individuals out of the ceremony room but only when CA+IW remain in the ceremony room. No one may leave when CA+IW are in safe room. Participants must sign in and out of ceremony room and leave any credentials assigned to them (keys, cards) in the ceremony room if leaving before completion of the ceremony. The SA starts filming before the participants enter the room.

Some steps during the ceremony require the participants to tell and/or confirm identifiers composed of numbers and letters. When spelling identifiers, the phonetic alphabet shown below will be used:

Α	Alfa	AL-FAH
В	Bravo	BRAH-VOH
C	Charlie	CHAR-LEE

ICANN DNSSEC Script Exception

Abbreviations

TEB = Tamper Evident Bag

HSM = Hardware Security Module

FD = Flash Drive

CA = Ceremony Administrator

IW = Internal Witness

SA = System Administrator

SSC = Safe Security Controller

Instructions: Initial each step that has been completed below, e.g., BTS. Note time.

Note Exception Time

1	IW notes date and time of key ceremony exception and signs here:	FA	17:19
2	IW Describes exception and action below		1

-Before entering to fier 5 (step 6) we realize the lack of pre-printed logs. The Ikos printed a set for IWI.

End of DNSSEC Script Exception –

Act 2. Verify the OP and SO Credentials

Open Credential Safe #2

Step	Activity	Initial	Time
6.	CA and IW1 escort SSC2, all COs, Secure Key Courier and locksmith into the safe room together. CA brings a flashlight when entering the safe room.	FA	17:27
7.	SSC2, while shielding combination from carnera, opens Safe #2.	FA	17.79
8.	SSC2 takes out safe log and prints name, date, time, signature, and reason (i.e. "open safe") in safe log. IW1 initials this entry. Note: If log entry is pre-printed, verify the entry, record time of completion and sign.	FA	17:29

CO5 verifies the OP and SO credentials

Step	Activity	Initial	Time
9.	CO5 checks the OP/SO cards and retrieves both cards following the steps shown below a) With the assistance of CA (and his/her common key), opens her/his safe deposit box. # Common Key is bottom lock and CO Key is top lock b) Verifies integrity of contents by reading out box number and TEB # for OP and SO cards which should match below. c) Makes an entry in safe log indicating OP and SO TEB removal with box #, printed name, date, time and signature. Note: If log entry is pre-printed, verify the entry, record time of completion and sign. IW1 initials this entry. CO 5: Christopher Griffiths Box # 1240 OP TEB # A15473416 SO TEB # A14377125	FA	17:33
10.	CO5, together with the Secure Key Courier and other COs onsite verifies the integrity of the TEBs. Once CO5 is comfortable with the integrity of the credentials, signs off the attestation to complete the CO rotation.	FA	17:39

Locksmith Replaces the Safe Deposit Box Locks

Step	Activity	Initial	Time
11.	CA confirms that the boxes below are empty then the Locksmith removes the dual nose Mosler locks from the safe deposit box and installs new units. The box that needs replacement is as below. Box 1240 (due to Crypto Officer Rotation) Box 1241 (due to malfunctioning Lock)	FA	17:11

version 1.0 Page 5 of 7

CO5 Receive New Safe Deposit Box Keys and Return OP and SO Cards

Step Activity	Initial	Time
12. CO5: a) Opens the safe deposit box, using one of the keys already in place, with assistance of CA who uses his/her common key, and looks into the box with a flashlight to verify that the box is empty. b) Closes and locks the box and opens and closes it once again to test his/her second key, with the assistance of the CA and his/her common key. c) CO5 makes an entry into the safe log indicating the return of OP and SO card including Box #, TEB #, card type, printed name, date, time, and signature. IW1 initials the entry after verifying contents and integrity of the TEB and comparing TEB# s and card type to his/her script. Note: If log entry is pre-printed, verify the entry, record time of completion and sign. d) CO5 shows the bag to the camera and then places his/her TEB into his/her box and locks the safe deposit box with the help of the CA. e) Enters the box #, printed name, date, time and signature here on IW1's script: Box # 1240 Printed Name Christopher Griffiths Date 2 May, 2013 Time Signature	FM	7: 1/4

Close Credential Safe #2

Step	Activity	Initial	Time
13.	Once all safe deposit boxes are closed and locked, SSC2 makes an entry that includes printed name, date, time and signature into the safe log indicating closing of the safe. IW1 initials this entry. Note: If log entry is pre-printed, verify the entry, record time of completion and sign.	FA	17:4
14.	SSC2 puts log back in safe and locks Safe #2 (spin dial at least two full revolutions each way, counter clock wise then clock wise). CA and IW1 verify that the safe is locked and card reader indicator is green.	FA	17:45
15.	IW1, CA, SSC2, and all COs, Secure Key Courier and locksmith leave safe room, closing the door behind them.	FA	17:46
16.	SA escorts the locksmith out of the key management facility	F.4	17:47

version 1.0 Page 6 of 7

Participant Signing of IW1's Script

Step	Activity	Initial	Time
17.	ICANN KSK Operations Security confirms that CO rotation is perform in accordance with the exemption attestation and signs off.	FA	17:48
18.	All participants enter printed name, date, time, and signature on IW1's script coversheet. The <i>Trusted Community Representative Crypto Officer Rotation Exemption Attestation</i> is to be filed in the audit bundle with this script.	FA	17:53
19.	CA reviews IW1's script and signs it.	FA	17:55
