18:30 - 19:30	Community Wrap Up event					

Registrar questions re: Issues List:

    - Does Compliance agree each that issue is a process failure? If not, why?
    - What has Compliance done to address these issues? (How will they prevent these issues going forward?)
    - How is Compliance tracking these issues? Would each of these qualify as an "ICANN Issue" in Compliance's metrics? If not, what is Compliance's alternative method of tracking?

Registrar questions re: GDPR:

- Will Compliance change any processes?
    - Will Compliance defer enforcement of RRA obligations related to displaying WHOIS?
    - How will WHOIS complaints be handled if WHOIS is not available post GDPR?
    - How will transfer complaints be handled post GDPR given transfers will be completely changing. Will compliance on transfers be paused?
