Section II – Activities in Progress

Item	Description	Committee Completion Date	Accomplishments/Outcome
Name Collision Analysis Project (NCAP) – Study 2	The BTC Oversee the work on NCAP Study-2, and regularly update the Board on its evolution.	Q3 2022	Work on Study-2 is in progress with the support of an external contractor. A report is expected to be delivered to the BTC at the end of Q2 of 2022.
Evolution of the Root Server System governance: RSAAC037/038 implementation plan	The BTC to oversee and act as the Board Caucus group for the implementation of RSSAC037/038.	TBC	The Root Server System Governance Working Group (RSSG-WG) through its work continues to explore ways to fine tune and implement the proposals in RSSAC037. The Board has recently received and accepted [in Resolutions 2021.11.18.01, 2021.11.18.02 and 2021.11.18.03] the additional guideline provided by RSSAC through their document “Success Criteria for RSS Governance” - RSSAC058/59.
Root Zone Management (RZM) Evolution Study	To conduct an analysis of whether and how to revise the existing RZM through two studies: <ul style="list-style-type: none"> - The first study would evaluate the process as it is today and provide possible recommendations on incremental changes that could be made to make the process more robust. - The second study would not be limited to making incremental changes to the current approach but would instead consider a potential new radical approach for making changes to the content of the root zone. 	Q1 2022	A contractor is selected and the work on the first study is proceeding as planned. The first draft of the study was delivered to OCTO in late November 2021. The first study will go to public comment in early Q1 2022 and will be finalized and sent to the BTC in Q2 2022.
ICANN Managed Root Server (IMRS) Strategy	The BTC to oversee the finalization of the IMRS strategy taking into consideration inputs provided by the community.	Q1 2022	The project group is working on a revised version of the strategy document (OCTO-16). A new version is expected to be submitted to the BTC during Q1 of 2022.

Section III: Appendix – Resolutions Recommended by the BTC and Passed by the Board

PROPOSED RESOLUTIONS:

[Resolutions 2021.11.18.01, 2021.11.18.02, 2021.11.18.03] - Next Steps in Root Server System Governance

Whereas, the Root Server Operators (RSOs) are critical members of the Internet community and participate in the ICANN community through the Root Server System Advisory Committee (RSSAC).

Whereas, the ICANN Bylaws establish the RSSAC with the role to advise the ICANN community and ICANN Board on matters relating to the operation, administration, security, and integrity of the root server system (RSS).

Whereas, the ICANN Board remains committed to evolving RSS governance based on the model outlined in RSSAC037 and principles expanded in RSSAC055 and in accordance with advice in [RSSAC038](#).

Whereas, the [ICANN Board convened](#) (Resolution 2019.11.07.42) the RSS Governance Working Group (RSS GWG) to develop a final model of RSS governance and RSO accountability. Through that resolution, the ICANN Board accepted Recommendation 1 from RSSAC038 and noted that evaluation and consideration of Recommendations 2 and 3 from RSSAC038 was ongoing.

Whereas, the ICANN Board [supports](#) RSS GWG efforts to achieve consensus outcomes that implement new RSS governance and RSO accountability and is ready to work with the RSS GWG as its proposal evolves.

Whereas, the ICANN Board affirms that it is in the best interest of ICANN that the RSS GWG outcome is supported by the RSS stakeholders.

Whereas, the ICANN Board welcomes the development of success criteria for RSS governance by the RSOs and RSSAC as provided in RSSAC058.

Whereas, the RSS Governance Board Caucus Group has reviewed RSSAC058 and RSSAC059.

Whereas, the RSS Governance Board Caucus Group recommends that the ICANN Board accepts Recommendations 1 and 2 from RSSAC059 and directs the RSS GWG to incorporate the success criteria for RSS governance from RSSAC058 into its work.

Whereas, the RSS Governance Board Caucus Group recommends that the ICANN Board consider Recommendations 3 and 4 from RSSAC059 as part of its ongoing evaluation and consideration of Recommendations 2 and 3 from RSSAC038.

Resolved (2021.11.18.01), the ICANN Board accepts Recommendations 1 and 2 from RSSAC059 and will consider Recommendations 3 and 4 from RSSAC059 as part of its ongoing evaluation and consideration of Recommendations 2 and 3 from RSSAC038.

Resolved (2021.11.18.02), the ICANN Board directs the RSS GWG to incorporate the success criteria for RSS governance from RSSAC058 into its work.

Resolved (2021.11.18.03), the ICANN Board directs the ICANN President and Chief Executive Officer, or his designee(s), to continue supporting the work of the RSS GWG, RSSAC, and RSOs in the spirit of the advice expressed in RSSAC058 and RSSAC059
