Amendment to Registry Agreements

THIS AMENDMENT ("Amendment"), effective as of _____ ("Amendment Effective Date"), is made by and between the Internet Corporation for Assigned Names and Numbers ("ICANN") and ShortDot SA ("Registry Operator"), and shall amend the Registry Agreement for certain top-level domains ("TLDs") in the manner as further detailed and described herein.

WHEREAS, Registry Operator (i) is party to the Registry Agreements identified in Appendix I (each, a "Registry Agreement") and (ii) is the Registry Operator of those TLDs identified in Appendix I to this Amendment, which is attached hereto and incorporated herein; and

WHEREAS, in the interest of the mutual of convenience of the parties, in lieu of executing an individual amendment to the Registry Agreement for each individual TLD identified in Appendix I, the parties hereby desire to consolidate the modifications as provided in this Amendment.

NOW THEREFORE, the parties, intending to be legally bound, agree as follows:

1. Registry Operator represents it has proper authority to execute this Amendment for the purposes intended.

2. The Registry Agreement for those TLDs identified in Appendix I shall be amended in the manner set forth below as the amendment number provided in Appendix I.

3. The parties hereby agree to amend Exhibit A of each of the Registry Agreements identified in Appendix I by adding the following new text as a new section 5:

[START NEW TEXT]

"5.   NameBlock

NameBlock is a service that allows the Registry Operator to block certain labels from registration on behalf of NameBlock users. The blocked labels must not be allocated to the NameBlock user. The NameBlock service must be offered in compliance with all provisions of the Registry Agreement, including Specification 5, Section 3.3 of the Registry Agreement.

Domain names blocked by the NameBlock service must be (a) an exact match of a label or (b) variations of a domain name registered by that NameBlock user for the purpose of preventing abusive behavior. NameBlock does not allow blocks on domain names that are already registered by other third parties. Labels which are blocked as a result of participation in NameBlock do not prevent third parties from following rules established by the Registry Operator to request to unblock and register a domain name associated with a blocked label."

[END NEW TEXT]

Each party hereby acknowledges and agrees that this Amendment shall not be construed as a waiver of any provision of the Registry Agreements by any party hereto, nor shall it in any way affect the validity of, or the right of any party hereto, to enforce the provisions of the Registry Agreements.   The parties agree that, except as set forth in this Amendment and any prior duly authorized and executed amendments, the current terms and conditions of each Registry

Agreement will remain in full force and effect. All capitalized terms not defined will have the meaning given to them in each Registry Agreement. This Amendment may be executed in counterparts, each of which shall be deemed an original, and all of such counterparts taken together shall constitute one and the same instrument.

ACCEPTED AND AGREED:

INTERNET CORPORATION FOR ASSIGNED NAMES AND NUMBERS

By: _____
           Theresa Swinehart
           Senior Vice President, Global Domains and Strategy

SHORTDOT SA
