ACM DL DIGITAL LIBRARY

The Ultimate Online Resource for Computing Industry Research and Development

**Association for Computing Machinery**

www.acm.org/dl

A sampling of some industry relevent keyword results, as well as some highly relevent ACM publication titles and ACM Special Interest Groups covered in the ACM Digital Library.

Key Term Results in ACM Digital Library*

Security	**29,257**
Network Architecture	**11,430**
Enterprise Content Management	**4,825**
Stock Trading	**956**
Internet Banking	**1,232**
Internet Commerce	**6,259**
Computer-Human Interaction	**39,621**

*Total number of full-text articles in the Digital Library

ACM Publications

ACM Transactions on Information Systems (TOIS)

ACM Transactions on Applied Perception (TAP)

ACM Transactions on Embedded Computing Systems (TECS)

ACM Transactions on Graphics (TOG)

ACM Transactions on Computer-Human Interaction (TOCHI)

ACM Transactions on Modeling and Computer Simulation (TOMACS)

ACM Transactions on Multimedia Computing, Communications, and Applications (TOMCCAP)

ACM Special Interest Groups

SIGCHI Covers human technologies, including design issues, interfaces, societal, and human-computer interactions.

SIGecom Dedicated to the advancement of electronic commerce, principles and practice.

SIGSAC Addresses all aspects of information and system security, encompassing security technologies, secure systems, security applications and security policies.
