List of Tables

Table	Census Analysis	Page
A	Usually-Resident Population and Persons Present in Gibraltar	xxvii
B	Population by Age Group, 1970 - 2012	xxvii
C	"Under 15" Population by Nationality, 2001 and 2012	xxix
D	Population by Age Group and Changes between Censuses	xxx
E	Total Population by Month of Birth and Nationality, 2012	xxxix
F	Male Population by Month of Birth and Nationality, 2012	xxxix
G	Female Population by Month of Birth and Nationality, 2012	xxxix
H	Houses and Flats by Tenure, 1970 - 2012	xxxix
I	Percentage of Total Houses and Flats by Tenure, 1970 - 2012	xxxix
J	Average Household Size, 1970 - 2012	xxxix
K	Population by Major Residential Area, 2001 and 2012	xxxix
L	Population by Religion, 1970 - 2012	xxxix
M	Percentage of Population by Religion, 1970 - 2012	xxxix
N	Percentage of Population by Religion and Marital Status, 2012	xxxix
O	Percentage of Population by Marital Status and Religion, 2012	xxxix
P	Cars, Motorcycles and Parking Spaces, 1991 - 2012	xxxix
Q	Percentage of Population by Fluency in English, 2012	xxxix
R	Population by Age Group and General Health, 2012	xxxix
S	Population by Age Group and Care Activities, 2012	xxxix
T	Percentage of Population Economically Active by Age Group, 1970 - 2012	xl
U	Number of Self-Employed Persons, 2001 and 2012	xli
V	The Number of Full-Time Employees by Industry, 2001 and 2012	xli
W	Number of Full-Time Gibraltarian Employees by Industry, 2001 and 2012	xlii
X	Employed Persons by Occupation Group, 2001 and 2012	xliii
Y	Percentage of Full-Time Employees by Age Group, Sector and with an Occupational Pension Scheme, 2012	xliii
Z	Percentage of Full-Time Employees by Age Group, Sector and without an Occupational Pension Scheme, 2012	xliv
AA	Full-Time Employees by Sector and Occupational Pension Scheme, 2012	xliv
BB	Full-Time Employees by Sector and Planned Retirement Age, 2012	xliv
CC	Method of Travel to Work, 1981 - 2012	xliv
DD	Percentage of Method of Travel to Work, 1981 - 2012	xliv
EE	Mortality Rate per Thousand Population, 2003 - 2012	xlvi
FF	Life Expectancy, 2012	xlvii
GG	Comparative Life Expectancy, 1970 - 2012	xlviii

General and Economic Tables

Table	1. Population Tables	Page
1.01	Population, 1753 - 2012	3
1.02	Population by Age Group and Sex, 2012	3

FOREWORD

In exercise of the powers conferred on it by section 3(1) of the Census Act, HM Government of Gibraltar appointed me as Commissioner to take the Census of Gibraltar as specified in the Census Order, 2012.

The Order stated “The Census shall be in respect of all persons deemed to be usually resident in Gibraltar on Monday 12th November 2012.”

The arrangements were made in pursuance of the Order and the Census was taken on the appointed date and the results are contained in this Report in accordance with Section 5 of the Act.

I wish to record my gratitude to the Senior Census Officers - Claire Kelly-Federico, Helen Gustafson, Gina Yusifredo and Albert Gareze - their significant contribution ensured the success of the Census. I am also grateful to the Census Enumerators for their dedication to the delivery and collection of the Census Forms. My thanks to the Census Officers at the Statistics Office for their diligence in processing the Census data and to the Director and staff at the ITLD for their support throughout the entire exercise. Finally, I am also grateful to Richard J M Garcia MBE, former Chief Secretary, for his interesting historical account of Gibraltar censuses.

I would also wish to acknowledge the co-operation of members of the public in responding to the Census.

R H Chichon
Census Commissioner

GIBRALTAR CENSUSES - AN HISTORICAL ACCOUNT

THE EIGHTEENTH CENTURY

Censuses give a fascinating insight into aspects of Gibraltar's history. The details recorded afford glimpses of how Gibraltar's population arrived in Gibraltar and how it grew and developed.

A number of lists were drawn up in the early 18th century for a variety of purposes: the Spaniards who remained in Gibraltar after its capture by Britain in 1704; the rents payable to the Governor of Gibraltar in 1712; the number of able-bodied men capable of bearing arms in 1725 and so on. However, the earliest Census of the whole civilian population to have survived is that of 1753, four years after the creation of a civilian administration of Gibraltar under the newly-appointed Civil Secretary. The results then were: British 414; Genoese 597; Jews 572; Spaniards 185, and Portuguese 25. The total civilian population numbered 1,793.

By 1767, the Census classified the population into three categories: British Protestants; Roman Catholics; and Jews. That was to remain the standard classification for the rest of the 18th century. The 1767 figures cover the civil inhabitants "within the walls or out at Landport". The Landport was the gate facing the isthmus joining Gibraltar to the Spanish hinterland. The total civilian population was then 2,710: 467 Protestants, 1,460 Roman Catholics and 783 Jews.

Ten years later, in 1777, the Census became more complex. Not only were entries listed under the three religious categories, the population was now divided into "Natives" and "Not Natives". The total figure was then 3,201 of whom 506 were Protestant (all of "British Blood"), 1,832 Roman Catholics (all except 13 of whom were of "Alien Blood") and 863 Jews (all of "Alien Blood"). 1,334 of the inhabitants were natives.

The original 1777 list has survived. It was taken at General Boyd's command in February. Perhaps the most interesting category is that of the Roman Catholic inhabitants, as it lists the country of birth of each person, as follows:

English and Irish	13
Minorkeens*	62
Natives	845
Genoese and Savoyards	672
Portuguese*	93

Spaniards	134
French	13

* *These are the spellings of the original list.*

The 1777 Census contains an alphabetical listing of all the inhabitants by religion – first British and Protestants, second Roman Catholics and third Jews. The information recorded per person was the surname, first name, age, country of birth (and hence the nationality of the person), occupation, years in the Garrison of Gibraltar and remarks. The Scots today would probably object to the description of their country as recorded in 1777: North Britain. This was the result of the rebellions in the North that resulted in the elimination of the name Scotland from all official documents.

Some of the occupations recorded are quaint: there was one oysterman, there were mantua makers, hucksters, sutlers, patrons (i.e. boat skippers), soil carriers (i.e. persons who removed human and animal waste), lamplighters, lime burners and a “Teacher of the Italian”. The remarks column shows that the Census was updated as a record of the population of Gibraltar after the Great Siege of 1779 - 1783, when it was necessary to know how many people of those who left during the Siege had returned. Thus, there are snippets of information such as “Dead”, “gone and returned”, “Kill’d by a shell”, “Deserted during siege to the Enemy”, “Tak’n Pris’r by the Span’ds”, “order’d away”, “flogg’d out for a rape”.

Perhaps one of the most fascinating details is the commencement of the list of the Jewish inhabitants of 1777. It reads:

Aboab Isaac	65	born:	Tetuan	Merchant	57 yrs in Gibraltar
Aboab Hannah	50	born:	Gibraltar	Wife	
Aboab Simha	28	born:	Tetuan	Wife	15 yrs in Gibraltar

This detail shows the ambiguity surrounding the implementation in Gibraltar of the Treaty of Utrecht of 1713, which granted Gibraltar to Great Britain in perpetuity. The Treaty provided that there should be no Jews in Gibraltar. Therefore, the English law which forbids bigamy was not applied to the Jews, as they technically were not in Gibraltar.

The next count recorded was in 1787. The population had then increased by 185 to 3,386, of whom 512 were British Protestants, 2,098 were Roman Catholic and 776 were Jews. Within four years, however, there was a sharp drop in the population. Civil Secretary John Raleigh issued the following Notice, dated 8 February 1791, in both English and Spanish:

The Governor thinking it proper that a correct list of the present Inhabitants and Residents in the garrison shall be immediately made out; Therefore the Inhab'ts and residentiaries of every country and class are hereby required to send into this Office forthwith the names and numbers of each house, family and habitation, including children, servants, tenants, undertenants and lodgers, distinguishing their age, place of nativity and occupation, term of residence and by what Governor or Commander in Chief's permission each foreigner came here.

The Governor likewise requires the number of Mules, Burros, Horses, Cows, Goats and Sheep at this time in the inhabitant's possession: These returns may be dropt into the letter Box address'd to the Secretary, and the Governor hopes there will be no omission.

In addition, at the time, supplementary lists were also made. Examples are the list of Inhabitants Houses of 1778, which was drawn up for the purpose of levying rates on properties for scavenging and cleansing, and the list of Garrison Seamen of 1792.

THE NINETEENTH CENTURY

Following the 1803 Yellow Fever epidemic, Gibraltar was divided into Police Districts and registers were kept of the inhabitants of each district. These registers recorded all arrivals and departures. The information contained in the police counts supplements that of each periodic Census.

The earliest 19th century Census that has survived is that of 1814. It reveals a trebling of the population to 10,136. The main reason for this was that during the Napoleonic wars, Gibraltar was the only port open in Europe for the passage of British goods to other European countries. This attracted a large merchant and trading population, despite the dangers of epidemic diseases.

That the 1814 population was largely composed of recent arrivals is indicated by the breakdown of the figures: only 1,191 inhabitants were of British birth or origin and only 1,851 were native Catholics of alien origin. The great majority of the recent arrivals came from Genoa.

The early 19th century saw several other sudden decreases in population due to epidemics. Thus, there is a note in the Civil Secretary's book, "in 1828 the Garrison became overcrowded and was devastated by a 'fearful epidemic' ". It was Yellow Fever once again. Nevertheless, the police count for 1829 indicated a total civil population of 16,394.

The 1834 Census was based on the Police Districts. The Census Commissioner was then the Police Magistrate, and he was empowered to appoint five Assistants or Enumerators. The count of the population was no longer a complete alphabetical list by religion, but a listing by the areas where people lived.

The modern Census dates from 1868, when *The Census of the Population Ordinance, 1868* was enacted. This laid down the basis for the decennial census. Census Reports, beginning with that for the 1871 Census, were now printed for easy access.

The 1878 Census records that "Aliens" were allowed into Gibraltar on 1st and 2nd class permits and with Fishermen's Badges. Up to 1,840 fishermen of the Genoese fleet would be based at Catalan Bay at this time, for the duration of the fishing season. There was then no road leading to Catalan Bay and no easy access other than by sea. The companies of fishermen would erect temporary shelters on the beach for the duration of their stay, or they would live in caves. Gradually, some fishermen stayed on even after the season ended. By 1878, a permanent village had been established at Catalan Bay.

One of the tables no longer present in the 1878 Report is that covering the number of convicts. This is because the Convict Establishment was disbanded in 1875, 30 years after its foundation: convicts were no longer sent out to Gibraltar from the United Kingdom. The Establishment was 552 strong in 1871. At its peak, it numbered about 900. Convict labour was used to build part of the present Line Wall, the white stone sea wall that was built close to or on top of the older Spanish and Moorish sea walls. Some of the convicts were released after their term in Gibraltar, others were sent to Australia.

The 1878 population tables divide the civil population into four districts: the Town; the Rock; the South; and North Front and Catalan Bay. These enumeration areas were later to increase in number.

In 1891, for the first time, the Census covered the Port and Harbour, including the people living on board the stationary craft in the Bay such as hulks, pontoons and lighters. They numbered 759 out of a civil population of 19,100. The Military population was then 5,896.

At this time, it was the Registrar of Births who acted as Census Commissioner, a situation that remained unchanged until the 1951 Census. In his 1891 Report, Registrar James C Gordon informed the Colonial Secretary (previously the Civil Secretary):

As compared with the Decennial Census taken in 1881, the increase of the civil population of the town is 719, which is even more than could reasonably have been expected when it is considered that overcrowding has existed for many years and that building space is very limited. On the other hand stagnation in trade has lately caused emigration to the states of South America to some extent, and numbers of native families have, within the last few years, taken up their residence in the neighbouring town of La Linea on account of its less expensive house rent and the want of accommodation here.

This, together with the severe limiting of residence permits, helps to explain why the population did not increase appreciably between 1871 and 1931.

Some of the occupations listed in the 1891 Census shed light on Gibraltar's way of life. There were still 29 Goatherds (as opposed to 49 in 1871) and 4 Livery Stable Keepers. Merchants were listed as:

Furniture		15
Indian Goods		3
Matting		2
Gloves		1
Dealers in	Crockery	9
	Moorish Curiosities	8
	Boots and Shoes	3
	Wines, Spirits and Beer	45

There were also 8 Car Proprietors (i.e. horse-drawn cabs) and 8 Soda Water Manufacturers.

The 1891 Census reveals the extent of overcrowding at the time. For example, there were 37 households where 7 people lived in a single room, and 88 where 7 people lived in 2 rooms. There were also 58 households where 6 people lived in a single room, and 118 where 6 people lived in 2 rooms. The Enumerators for this Census were the three Sanitary Inspectors.

THE TWENTIETH CENTURY

The British Government required a Census of the British Empire on or near the 2nd April 1911. The Gibraltar Census questionnaire was altered slightly to conform with the requirements of this Census and information was now sought on houses, religion and education, which had not been required for the 1901 Census.

In 1921, the Enumerators were no longer the Sanitary Inspectors: the police performed this task for the first time. It was a logical move: given that the police had been keeping records of the population in the town for many years. There were then 27 Police Districts in the Town and 11 in the South District. They formed four Wards. North Front and Catalan Bay then formed a fifth Ward.

The 1931 Census recorded, for the first time, two separate listings in respect of employment: one was an industry classification and the other an occupational classification. One key factor - which was noted in the covering Report - was that the 6,000 daily frontier workers coming into Gibraltar from Spain did not figure in any of the tables.

No Census was taken in 1941, because of the Second World War. A large proportion of the civil population, estimated at about 16,700 non-combatants, was evacuated to the United Kingdom, Madeira, Jamaica and Tangier. This included all women, children and the elderly. Although the majority of the evacuees returned to Gibraltar, about 1,000 persons preferred to settle permanently abroad. The repatriation lasted from April 1944 to early 1951. This increased the importance of the 1951 Census in order to establish the exact population following the upheavals caused by the war.

The Registrar of Births was no longer the Census Commissioner. In 1951, it was the Director of Labour and Social Security; in 1961, it was the Chief Assistant Secretary. In 1970, 1981 and 1991, the Census Commissioner was Mr Harry Fell, initially on secondment from the Overseas Development Administration. In 2001, the Census Commissioner was Mr Trevor Evans who had recently retired from the post of Census Manager at the Northern Ireland Statistics and Research Agency. The number of Enumeration Areas increased from 16 Civil Districts in 1951, to 20 in 1961, to 64 in 1970 and 1981 and 68 in 1991. The enumerators also changed. In 1951, the Police performed this task. In 1961, it was 13 police officers and the Government Rent Collectors. Since 1970, the enumerators were drawn from the Civil Service.

The 1970 Census was a year early. The reason for this was the Spanish Government's closure of the Land Frontier between Gibraltar and Spain on 9 June 1969, with the consequent sudden withdrawal of the Spanish labour force of 4,666 men who had previously entered Gibraltar daily to work. They constituted over one-third of Gibraltar's

work force. Gibraltar was then finally and totally cut-off from Spain, on 26 June, with the suspension of the direct ferry link from Algeciras and the Spanish Government's refusal to allow a British ferry to ply the route.

An additional new factor, since the 1961 Census, was that approximately 800 persons previously living in the Spanish hinterland moved into Gibraltar in 1965 as a result of increasing Spanish restrictions against Gibraltar. The 1970 Census provided some much-needed information on Gibraltar's population, manpower and employment (including those with second jobs).

With the 1981 Census, the original time rhythm was restored in line with the traditional decennial pattern for conducting censuses.

The frontier between Spain and Gibraltar was partially opened by Spain in December 1982 and the full opening followed in February 1985. It was important to measure the impacts of the open frontier. They were recorded in the 1991 Census.

2012 CENSUS OF GIBRALTAR

1. The Census defined

The 2012 Census of Gibraltar can be defined as the process of collecting, processing and publishing demographic, economic and social information in respect of all persons deemed to be usually-resident for Census purposes as at 12 November 2012.

The Census, therefore, is a statistical survey which differs in two fundamental ways from other statistical surveys. On the one hand, it aims to enumerate, or count, the entire population at a specified time as opposed to a sample survey which would focus only on a cross-section of that population. On the other, it is a survey which legally obliges everyone to complete, or be included in, the Census Form as opposed to voluntary participation.

2. What the Census is for

A Census is undertaken at certain points in time, normally every ten years. It serves two main purposes. Firstly, it provides a sound basis for accurate comparisons in respect of the changes which have taken place over the time period. Secondly, it aims to provide information that will be useful both to HM Government of Gibraltar and to other organisations in formulating policies, in targeting resources more effectively and in planning for future housing, education, health, employment and other needs. That is why it is important for everyone to be counted in the Census.

3. The timing of the Census

The ten-year time gap, re-established as from 1981, was broken once again with the targeted 2011 Census deferred to 2012. There were two main reasons for this. Firstly, in early 2011, the view was taken that future censuses should follow the model used in many European countries, such as Denmark. That is, that the relevant census information would be obtained from a number of administrative sources which already held that information on behalf of Government within their computerised systems. It was subsequently decided that this approach would be further and more usefully explored in relation to future censuses. Secondly, a population decennial snapshot is a comprehensive and costly exercise. Consequently, every effort must be made to ensure that the results remain valid and relevant for as long as possible. Given that new housing at Mid-Harbour Estate was to have become available towards the latter end of 2011, and its consequent knock-on effects in terms of further population movement, much of the data would have been out-dated somewhat prematurely by the time of its availability and publication. The Census date was decided for 12 November of 2012 as representing the most appropriate timing to avoid school holidays, summer and mid-term holidays and religious festivities.

PLANNING AND ORGANISATION

As part of the initial stages of planning for the 2012 Census, a letter was sent to heads of Government Departments and Authorities on 12 March 2012. Comments were invited on the questions which had been made in the 2001 Census and suggestions regarding new topics which could be covered were also requested. It was pointed out that any proposed new questions should not place a significant burden on the form-filler and should not be controversial as this could affect the overall level of response. It was also made clear that any information eventually derived from the Census would be in such form as to ensure that confidentiality, as regards details provided by individual persons, would be maintained. All organisations approached replied and I must record my gratitude for the interest shown although it was obviously not possible to accommodate all suggested questions given the space limitations of the final questionnaire.

In April 2012, preparatory work commenced on the list of addresses which would form the basis from which the Census would be taken. The list of addresses was derived from three sources:

- (a) The 2011 Register of Electors provided by the Gibraltar Parliament.
- (b) The 2012 Valuation List provided by Land Property Services Limited.
- (c) The 2001 Census Addresses List.

The final list of addresses for the Census entailed much detailed work as all three sources are not fully consistent on how individual addresses are classified. The 2001 Census Addresses list, updated on the evidence of what Enumerators found at the time when delivering the Forms, constituted the basis for the new list. This was complemented and updated from the information available in both the other sources.

New Enumeration Maps were drawn up based on the new addresses list for use by the Enumerators and Office staff in due course. In the months leading up to Census day itself, the Census Form was finalised, information leaflets and notices were completed, printing, stationery and IT requirements were met and the legislative framework put in place.

The 2012 Census Form was drafted and completed in the months leading up to Census day. A total of forty-three questions were included in the questionnaire, compared with twenty-six in 2001 although, as then, persons were not required to answer all the questions included just those of relevance to them. The 2012 Form represented by far the most comprehensive one ever designed in the history of the Gibraltar censuses. By way of comparison, for example, that of 1961 contained just thirteen. The 2012 Census thus took on a different steer to the way censuses have been undertaken in the past. Apart from the core demographic data which is normally obtained from a census, further detailed information was requested particularly with respect to employment and related

labour issues. This information will provide Government with a more complete and accurate picture of the labour market than has hitherto been the case. Additionally, the Form included questions on health for the first time and re-introduced a question on English language fluency.

The language question was also included in the UK Census questionnaire. It provides the education authorities with useful information with respect to fluency in the official language of the territory. The 1951 Census included a question on literacy in the English language and disclosed that 75% of the population could speak simple English but the remaining 25% were recorded as being illiterate. The 1961 Commissioner was of the opinion that this latter statistic was inaccurate and decided against including the literacy question in the 1961 Census questionnaire. It featured again in the 1970 Census Form but no tables were produced in relation to it. The Commissioner for 2001 Census recommended that it should be included in future censuses particularly so given the free-flow of labour across the European Union and it was consequently re-introduced.

On the 18 October 2012, an Order was made under Section 2 of the Census Act requiring a Census to be taken of all persons deemed to be usually resident in Gibraltar on Monday 12 November 2012.

For convenience in the distribution and collection of Forms, all persons in Gibraltar were classified under the following groups:

1. Members of households living in houses and flats as specified in Schedule 1 of the Census Act (2012 Census) Regulations 2012 in respect of Enumeration Areas 1 to 70.
2. Servicemen in the Royal Gibraltar Regiment living in quarters or barracks.
3. Residents living in institutions such as hotels, hostels, hospitals, prison, marinas, churches and care homes.

The Royal Gibraltar Regiment agreed to accept responsibility for the enumeration of Group 2 and the Census Forms were delivered and returned as agreed.

A Senior Census Officer was appointed for the enumeration of Group 3. This Group, given the diversity of the institutions in question, presented special problems. It was consequently important to obtain the support and co-operation of the managers of the establishments and I am pleased to record my thanks to them for their assistance in providing the information requested. In addition, care had to be taken with respect to persons in hospitals, prison or homes to ensure that these were not also included in the household Forms of their families in order to avoid any possible double-counting.

Three Senior Census Officers handled the administration and organisation of the enumeration of households included under Group 1, which accounted for most of the population. In accordance with the Census Act (2012

Census) Regulations 2012, Gibraltar was divided into seventy Enumeration Areas (EAs). For the sake of consistency and comparability of data with previous censuses, the 2001 Census EA boundaries were retained. However, given substantial population movement to the major residential developments both on existing and reclaimed land, the continuing occupation of former MOD property by the civilian population, and the consequential property changes in other areas of Gibraltar, additional EAs were included for the 2012 Census. For enumeration purposes exclusively, some of the EAs were sub-divided into smaller units in order to ensure that each Enumerator had roughly the same number of households to deal with.

For the enumeration of the Institutions, eight EAs (80 to 87) were created. UK-based civilians and their families were included in EA 90 and the families of UK-British Service personnel were allocated to EA 100. The Ministry of Defence provided head-count information for EAs 90 and 100 as this is sufficient for the purposes of the Census as these persons do not constitute part of the usually-resident population base of Gibraltar (Table A refers).

The Census Enumerators were recruited from within the public sector and were trained in the duties of the delivery and collection of the Census Forms. The Census staff were required to familiarise themselves with the contents of the Form as they could need to assist householders in completing it. Special emphasis was placed on the confidentiality aspects of the exercise as this would be vital to public confidence in the integrity of the Census. All the Census Enumerators and Senior Census Officers signed the statutory Census Confidentiality Undertaking in the presence of a Justice of the Peace before the commencement of their enumeration duties. Ideally, the aim was to allocate one EA to each Enumerator. However, in some cases it was necessary, as stated earlier, to sub-divide the EA into smaller units in order to distribute more equitably the number of households each individual Enumerator would need to cover. By contrast, some of the EA's which were small in population terms, were grouped together for enumeration purposes only and allocated to one Enumerator. The Enumeration Areas were divided into two groups by taking into account the degree of difficulty likely to be encountered. Thus, as a general principle, housing estates were considered easier to enumerate than the town areas where addresses might not be as accurate and where the likelihood of properties being in the process of renovation, lying vacant or derelict, was greater.

During early November, Official Notices appeared in the local news media informing the public of the date of the 2012 Census of Gibraltar and of their legal responsibility to complete a Census Form. The Census Commissioner was interviewed by GBC Radio and Television on the purpose of the 2012 Census and how the exercise would be carried out.

The delivery of the "Notice to Householders" leaflet and the Census Forms (Appendices I and II respectively refer) began on Friday 2 November and, in general, were completed by Wednesday 7 November. Subsequently,

announcements were made on GBC Radio and Television and in local the press informing the public that they should contact the Census Office if they had not received a Census Form by 12 November. The collection of Census Forms began on Tuesday 13 November and Enumerators were instructed to return all completed Census forms by Monday 19 November. A number of “No Contacts” and “Late Returns” had to be followed up both by mail and in person by the Senior Census Officers. Many of these were the result of householders having been absent from Gibraltar during the Census period, the property being vacant or the Enumerator failing to make contact with the householder. On some occasions Enumerators made up to three visits and were still not able to contact the householder.

The first phase of data input and editing of the Census Forms began in March 2013, by which time the relevant suite of programs had been tested and finalised, and was completed by October 2013. A further phase of editing and checking revealed that some questions on the Census Forms were not answered properly and the information supplied, or lack of it, required clarification. Most omissions and queries were resolved by telephone and email, as householders were asked on the Census Form to supply their contact details. The initial draft Census tables were produced during the first six months of 2014.

CENSUS DEFINITIONS AND NOTES

1. Usually Resident

A usual resident of Gibraltar, for census purposes, is anyone who, on 12 November 2012:

- (a) was in Gibraltar and had stayed or intended to stay in Gibraltar for a period of 12 months or more, or;
- (b) has a permanent Gibraltar address but is outside Gibraltar and intends to be outside Gibraltar for less than 12 months.

2. The treatment of the Services for census purposes

The following criteria, which have traditionally been applied, continued to be applied:

- UK-British military personnel are excluded completely from the Census count.
- The families of UK-British military personnel were included as “persons present” on Census day, but do not form part of the “usually resident” count.
- Members of the Royal Gibraltar Regiment and their families were included as “usually resident”.

3. How a de facto census differs from a de jure census

A “de jure” census tallies people according to their regular or legal residence, whereas a “de facto” census allocates them to the place where enumerated - normally where they spend the night of the day enumerated. In a de jure census count, all persons normally resident in the area are counted including permanent residents who are temporarily away but excluding temporary residents and visitors. This is in contrast to a de facto census that counts people present in the area including temporary residents and visitors but excluding permanent residents who are away. The Gibraltar census is a de jure census.

4. Gibraltarians living in Spain

Gibraltarians living, or having a second home, in Spain and who have a permanent or official address in Gibraltar, are included in the Census count. Anyone receiving a Census Form should be included in the count. Such persons would fall within a “de jure” census count as they are Gibraltarian, have a legal residence, enter Gibraltar frequently to work, are registered locally for income tax purposes etc. These individuals have also formed part of the 1991 and 2001 Census count and would also fall under the “usually resident” definition as previously explained.

5. Who is included as "Gibraltarian" under nationality

Persons entitled to register as Gibraltarian under the 1999 Gibraltarian status Act, regardless of whether they had registered or not. As in the Census 2001, the Gibraltarian population is arrived at by classifying persons in accordance with their entitlement to Gibraltarian status.

6. The difference between a visitor, a boarder and a lodger

A boarder: lives at the same address as the household, shares cooking facilities etc., has been or will be in Gibraltar for 12 months and should thus be included in the household Form.

A visitor: is in Gibraltar for a short period of time (less than 12 months but including the night of 12 November), may or may not share facilities and should only be included in the head-count.

A lodger: lives (rents) at the same address as the household, does not share facilities, has been or will be in Gibraltar for 12 months and would therefore need to complete a separate Form.

7. Why it is necessary to ask for the name of respondents

The names of individual persons are not, and have never been, used for statistical purposes. The names remain exclusively on the Forms and are not inputted into any database nor shared with any other public authority or private organisation. Requiring respondents to include their names is useful, not only for the completeness of the exercise, but also for historical and research reasons. Published information will be only in aggregate form and no individual person nor household will be identified as per the provisions of the Census and Data Protection legislation.

CENSUS ANALYSIS

1. Population

Since the 1961 Census, and up to and including the 1991 Census, the definition of the “Usually-Resident” population of Gibraltar had, for reasons of continuity and comparison, remained unchanged. To this effect, the “UK and Other British” category included the UK-based MOD civilians and their families even though these were essentially temporary residents of Gibraltar. In 2001, this approach was changed and the Census definition for the “UK and Other British” category excluded UK-based MOD civilians and their families. Instead, as temporary residents, they were classified under “Persons present in Gibraltar on Census night” together with “Families of UK Servicemen”. This approach provided consistency with the way in which the families of UK servicemen, who are also regarded as temporary residents, have been classified for population count purposes.

The families of UK servicemen are not permanent residents whose educational, health and other public needs are the responsibility of HM Government of Gibraltar. The same principle has, and continues to apply, to UK-based MoD civilians and their families. These persons were thus enumerated on a head-count basis only from information provided by the MoD.

For the 2012 Census, as has been the practice since 1970, “Persons Present in Gibraltar on Census Night” includes usually-resident civilians, the families of UK British Servicemen, UK-based MOD civilians and their families and visitors. The figures for UK-British Servicemen are excluded completely from the Census count. Visitors were also enumerated on a head-count basis only with the assistance of the managers of the relevant institutions.

Table A: Usually-Resident Population and Persons Present in Gibraltar

	1970	1981	1991	2001	2012
Gibraltarian	18,873	19,825	20,022	22,882	25,444

UK and Other British	3,001	3,706	3,811	2,627	4,249

Total Usually-Resident Population	24,672	26,479	26,703	27,495	32,194
Families of UK Servicemen	2,161	2,265	1,371	745**	383**
Visitors	1,132	872	1,010	3,383	989
Total Persons Present on Census Night	27,965	29,616	29,084	31,623	33,566

* Includes Moroccans and Other Nationalities.

** Includes UK-based MOD civilians and their families.

Table A shows a breakdown of the population in Gibraltar as at 12 November 2012. The total usually-resident population was recorded as 32,194 - the highest ever on record. The number of persons counted as Gibraltarian also reached an all-time high with a total of 25,444 - an increase of +11.2%. This difference of 2,562 is largely accounted for by an increase of around 1,600 in net Gibraltarian births over the period since the last Census together with a number of residents reaching naturalisation entitlement over the same period. Notwithstanding this, the Gibraltarian population constituted 79.0% of the usually-resident population in 2012 compared with 83.2% in 2001.

The number of Moroccan residents fell again, over the Census time-gap, by -45.7% (-439), similar to the -46.6% decrease over the previous two censuses. Once again this decrease can be partly accounted for by the inherent difficulties of enumerating the Moroccan community and partly by the increased number of Moroccans who have acquired British citizenship through naturalisation over the eleven years. However, there also appears to have been a further significant decrease in the number of Moroccans living and working in Gibraltar over the period as the Employment Survey figures also show (812 in October 2001 compared with 615 in October 2012).

The UK and Other British category witnessed a marked increase over the period, +61.7% (+1,622) no doubt reflecting the increase in employment levels in both the gambling and financial services industries over the eleven-year period in respect of persons who have taken up residence in Gibraltar. This increase has meant that the UK and Other British category constituted 13.2% of the usually-resident population compared with 9.6% in 2001.

The 2012 Census count for visitors was significantly higher than in 2001, but more in line with that of previous Censuses. In 2001, the abnormally high increase was mainly due to the presence in Gibraltar overnight of a cruise ship with over 1,000 passengers and crew on board. The number of visitors staying with Gibraltar households was 520 with the balance staying mainly in hotels and at the marinas.

Table B: Population by Age Group, 1970 – 2012

Age Group	1970	1981	1991	2001	2012
Under 15	5,662	5,674	5,242	5,062	5,833
15 - 19	1,744	1,884	1,851	1,801	1,997

80 and over	339	460	764	1,079	1,393
Not Stated	65	19	-	48	-
TOTAL	24,672	26,479	26,703	27,495	32,194

Table B shows that, over the forty-two year period, the largest increase with respect to the Usually-Resident population relates to the "80 and over" age group. This group has increased by +310.9% (+1,054 persons). Additionally, the increase in persons aged 60 - 79 over the period stood at +82.9% (+2,632 persons). The "Under 15" age group, although increasing by +3.0% when compared with 1970, rose by a significant +15.2% (+771 persons) since 2001. A breakdown of this increase is as follows:

Table C: "Under 15" Population by Nationality, 2001 and 2012

Under 15	2001	2012	Change
Gibraltar	4,382	4,782	+400
UK and Other British	421	695	+274

Spanish	28	104	+76
Other EU	29	142	+113

Other	89	84	-5
TOTAL	5,062	5,833	+771

Table D: Population by Age Group and Changes between Censuses

Age Group	1981	1991	2001	2012	Change 1981/91	Change 1991/01	Change 2001/12
					%	%	%
0 - 14	5,674	5,242	5,062	5,833	- 7.6	- 3.4	+ 15.2
15 - 64	17,828	17,882	18,127	21,116	+ 0.3	+ 1.4	+ 16.5
65+	2,958	3,579	4,258	5,245	+ 21.0	+ 19.0	+ 23.2
Not Stated	19	-	48	-			
TOTAL	26,479	26,703	27,495	32,194	+ 0.8	+ 3.0	+ 17.1

Age Group	1981	1991	2001	2012
as % of Total Population	%	%	%	%
0 - 14	21.4	19.0	18.4	18.1
15 - 64	67.3	67.0	65.9	65.6
65+	11.2	13.4	15.5	16.3
Not Stated	0.1	-	0.2	-
0 -14 and 65+	32.6	33.8	33.9	34.4

Table D shows that the usually-resident population has risen significantly by +17.1% from 27,495 in 2001 to 32,194 in 2012. There have been large increases both in the "0 -14" and "15 - 64" age groups. However, whilst the "0 - 14" age group increased by +15.2% over the eleven-year period since the last Census, as a proportion of the total population it has decreased marginally from 18.4% to 18.1%. It is significant to note that the "65+" age group has increased by +23.2% compared to 2001 and now represents 16.3% of the total population, up from

15.5% in 2001. Gibraltar is thus experiencing an ageing population, as indeed so are many other countries, with its implications for pensions, benefits and Government services.

* Includes Other British.

By way of lighter statistical interest, Tables E to G provide a breakdown by nationality of the resident population by month of birth. Whilst the highest number of persons were born in the month of January, most Gibraltarian male births were reported for the month of August and for Gibraltarian females for the month of September. It is interesting to note that 56.9% of all Moroccan nationals were recorded as being born in January, possibly implying some uncertainty as to their exact month of birth.

2. Nationality

The characteristics of the Usually-Resident population as defined for census purposes are shown under six nationality headings: Gibraltarian, UK and Other British, Moroccan, Spanish, Other EU and Other. It is useful to re-assert the position, as established with effect from the 2001 Census, as to who has been counted under "Gibraltarian" to avoid misunderstanding. By way of example, consider a family consisting of husband, wife, son and daughter. The husband is British, having been born in the United Kingdom and holding a valid British Passport. The coding of his nationality up to the 1991 Census would have been "Other British". His wife, born in Gibraltar and a descendant of a male person (father or grandfather) who is entitled to be registered, or is registered, as a Gibraltarian. The wife could have been recorded in the Census Form as "Other British", through marriage, or as "Gibraltarian" under the Gibraltarian Status Act. Both would have been correct, and for the purposes of the 1991 Census, "Gibraltarian" was coded as the person concerned would have been entitled to that status. The children, one born in the United Kingdom and one in Gibraltar were, unless entitled to be registered as "Gibraltarian", the same nationality as their father. Up to and including the 1991 Census, a person resident and born in Gibraltar was accepted as "Gibraltarian" if it was so stated on the Census Form and there was no reason to question it.

As from the 2001 Census, the Gibraltarian population was arrived at by classifying an individual in accordance with his or her entitlement to Gibraltarian status, whether registered as such or not. The reason for this change in definition was that in 1999, the Gibraltarian Status Act was amended with the consequent effect that more persons became entitled to Gibraltarian status. As a result, the descendants and the husbands of Gibraltarian women were entitled immediately to register as Gibraltarians provided that they already held British nationality. Also, persons who naturalised and who were resident for 25 years were able to register as Gibraltarians. These factors contributed to an increase of +14.3% more Gibraltarians in the 2001 Census than in 1991. The coding of the nationality question has been given careful attention again and every effort has been made to record a person's nationality in accordance with the latest Gibraltarian Status Ordinance on the basis of the information provided in the Census Form.

3. Housing

The housing tables in this Report provide details of the distribution of households by tenure of household, number of rooms and number of persons per household. As has been the case in the previous two censuses, the information tabulated includes householders living in houses and flats but excludes the families of UK servicemen and UK-based MOD civilians who are housed in MOD quarters. They also exclude persons living in boats, institutions and other types of accommodation such as that provided by employers. The figures for households by type of tenure can be compared as follows:

Table H: Houses and Flats by Tenure, 1970 – 2012

Year	Owner-Occupied	Co-Ownership	Government Rented	Private Rented	Other*	Not Stated	TOTAL
1970	209	-	3,629	2,135	54	10	6,037

% Change							
2001/12	82.1%	-30.8%	7.5%	27.5%	-36.9%	-	21.6%

* 'Other' does not include households living permanently on boats.

Table I: Percentage of Total Houses and Flats by Tenure, 1970 – 2012

Year	Owner-Occupied	Co-Ownership	Government Rented	Private Rented	Other*	Not Stated	TOTAL
1970	3.5%	-	60.1%	35.4%	0.9%	0.2%	100.0%
1981	5.2%	-	64.8%	29.7%	-	0.3%	100.0%
1991	15.1%	-	61.7%	23.1%	-	-	100.0%
2001	24.4%	17.1%	44.1%	13.8%	0.7%	-	100.0%
2012	36.5%	9.7%	39.0%	14.5%	0.3%	-	100.0%

* 'Other' does not include households living permanently on boats.

** Total percentages may not add up to 100.0 as a result of rounding off.

The total number of households enumerated has increased by +21.6% (+2,099) since the last Census, with the figure in respect of Owner-Occupied dwellings increasing by +82.1% over the eleven-year period. This is partly accounted for by an increase in the number of housing units available for purchase over the period as well as by a shift from co-ownership to full ownership, with the former falling by -30.8% (-509 households). The combined

Owner-Occupied and Co-Ownership categories increased by +35.7% (+1,434 households) and account for 46.2% of the housing market compared with 41.5% in 2001. Both Government-Rented and Private-Rented accommodation have been on the increase, by +7.5% (+321 households) and by +27.5% (+368 households) respectively, reflecting an increase in the housing stock since the time of the 2001 Census.

A further reason for increased growth in the housing market has been the completion of a number of housing developments both at the reclaimed areas and at existing sites.

The "Average Household Size" continues to decrease as the Table J shows.

Table J: Average Household Size, 1970 – 2012

Year	Average Household Size
1970	4.1
1981	3.8
1991	3.2
2001	2.8
2012	2.7

The 2012 Census included a question in respect of mortgages. It is not possible to make historical comparisons as the question was included in the Census Form for the first time. A total of 3,424 persons responded that they had a mortgage in respect of a property either in or outside Gibraltar. Of these, 367 (10.7%) responded that they resided in Government-Rented and Private-Rented accommodation. It might also be of interest to note that of the 2,390 Owner Occupiers, 1,557 (65.1%) were aged 40 and over whereas, in contrast, 324 persons (48.9%) were aged under 40 in respect of Co-Ownership tenancy. The new tables differentiating between households with and without mortgages by age of householder and Enumeration Area will provide an additional insight into the structure of the housing market than has hitherto been the case.

The figures in respect of population movement between the Major Residential Areas also make interesting reading.

Table K: Population by Major Residential Area, 2001 and 2012

	2001	2012	Change	% Change
East Side	429	526	97	22.6
North District	4,116	4,267	151	3.7
Reclamation Areas	9,599	13,356	3,757	39.1
Town Area	3,588	3,264	-324	-9.0

Upper Town	2,805	2,457	-348	-12.4
Sandpits Area	2,207	2,053	-154	-7.0
South District	4,257	5,681	1,424	33.5
TOTAL	27,001	31,604	4,603	17.0

* Excludes persons residing in institutions and boats.

Table K shows that both the Reclamation Areas and the South District have witnessed significant growth in the numbers of persons residing within those areas, +39.1% and +33.5% respectively. Additionally, in 2012, 42.3% now live in the Reclamation Areas compared with 35.6% in 2001. Indeed, in terms of housing accommodation, the Reclamation Areas and the South District combined now account for 60.2% of the resident population, compared with 51.3% in 2001.

4. Social Statistics

TOTAL **100.0** **100.0** **100.0** **100.0** **100.0**

** Total percentages may not add up to 100.0 as a result of rounding off.*

Table L and Table M provide a comparative breakdown of the population by religion over the past five Censuses. In absolute terms, Roman Catholicism represents the largest religion in Gibraltar over this time-period. In relative terms to the total population, however, there has been a reported decline of -6.0 percentage points since the 2001 Census. The number of persons who stated "None" increased from the 2001 Census by +1,507 to represent 7.1% of the population compared to 2.9% in 2001. It is also interesting to note that, although the number of Moroccan nationals fell from 961 in 2001 to 522, partly due to naturalisation as British citizens, the number of persons who stated their religion as Muslim increased over the same period by +64 (+5.8%).

Table N: Percentage of Population by Religion and Marital Status, 2012

* Total percentages may not add up to 100.0 as a result of rounding off.

It is not possible to compare Table N and Table O historically as no comparative statistics were produced from previous Censuses. They do, however, provide an interesting break-down of marital status by religion.

Table P: Cars, Motorcycles and Parking Spaces, 1991 – 2012

Number of:	1991	2001	2012
Cars	7,662	10,559	13,010
Motorcycles	3,738	6,315	7,384
Parking Spaces	1,030	n/a	8,071

The traditional question on possession of cars and motorcycles was included in the 2012 Census Form. No question on garages and parking spaces was included as part of the 2001 Census. Table P shows that the number of cars in Gibraltar has increased by +69.8% since 1991 and by +23.2% over the eleven-year period since the 2001 Census. Equally, the number of parking spaces taken up by Gibraltar households has increased by +683.6% since 1991. This would imply that around 62% of the cars in Gibraltar are privately-parked compared with some 13% in 1991.

Table Q: Percentage of Population by Fluency in English, 2012

	Gibraltarian	UK British*	Moroccan	Spanish	Other EU	Other	TOTAL
Very Well	78.4	91.5	12.0	24.6	66.5	65.8	77.2
Well	16.7	6.3	25.1	27.8	25.0	22.0	16.0

Not at All	1.8	0.5	22.5	14.1	2.5	3.7	2.3
TOTAL	100.0	100.0	100.0	100.0	100.0	100.0	100.0

* Includes Other British.

** Total percentages may not add up to 100.0 as a result of rounding off.

No comparative information is available with respect to language fluency in recent Censuses. Table Q shows that over 93% of the resident population consider themselves fluent in English. Although the table is derived from information provided by respondents which could be deemed somewhat subjective, it nevertheless provides a good indication of the degree of fluency within each nationality category.

Table R: Population by Age Group and General Health, 2012

Age Group	Very		Fair	Bad	Very Bad	Not	TOTAL
	Good	Good				Stated	
Under 15	5,045	684	66	10	11	17	5,833
15 - 19	1,701	252	27	5	6	6	1,997

Health and care questions were included for the first time in the 2012 Census Form. It is hoped that by doing so, useful information has been made available to the health authorities in a way that has never been attempted before. Almost 60% of Gibraltar's resident population identified their general state of health as "Very Good", with a further 28% stating "Good". Quite a number of responses were left unstated but almost half were in respect of persons aged 80 and over. Although every effort was made to record a reply in respect of this question, it was not possible to reduce further the number of "Not Stated".

Table S: Population by Age Group and Care Activities, 2012

Age Group	No	Yes, 50 or			Not Stated	TOTAL
		Yes, 1 -19 Hours a Week	Yes, 20 - 49 Hours a Week	More Hours a Week		
14 - 19	2,344	49	4	8	17	2,422

20 - 24	1,934	61	5	10	17	2,027
25 - 29	1,881	73	11	11	10	1,986

70 - 74	1,054	42	19	46	15	1,176
75 - 79	922	31	8	27	33	1,021
80 and over	1,121	30	4	43	195	1,393
TOTAL	23,943	1,566	314	556	407	26,786

Health care questions were also introduced as part of the 2012 Census. Nearly 90% of persons responded that they do not look after or give any help to family members, friends, neighbours or others because of either: long-term physical or mental ill-health/disability or problems related to old age. As with the general health question, there were a number of "Not Stated" responses in the main (47.9%) related to persons aged 80 and over.

5. Economic Statistics

The economically active population of Gibraltar includes all persons living in Gibraltar who are either in full-time and part-time employment or who are unemployed and seeking work. The 2012 Census shows that there were 2,489 (+19.6%) more persons who were economically active than in 2001, (1,431 females and 1,058 males). The economically active in specified age groups, divided by the total numbers in those age groups, gives the activity rates in respect of those age groups and these are shown in Table T below.

Table T: Percentage of Population Economically Active by Age Group, 1970 – 2012

Year	15 - 24		25 - 54		55 - 64	
	Male	Female	Male	Female	Male	Female
	%	%	%	%	%	%
1970	86.8	57.5	98.0	49.4	90.2	36.5
1981	78.8	57.2	98.9	44.4	91.2	25.6
1991	62.3	57.4	97.2	59.4	78.0	27.9
2001	44.8	40.9	92.5	68.4	67.1	34.8
2012	46.4	40.9	92.1	77.1	60.4	36.2

The figures in Table T indicate that the percentage of economically active males in the 15 - 24 age group has increased by 1.6 percentage points. However, the number of students undertaking higher education studies continues to grow. Figures provided by the Department of Education indicate that the number of students studying away in the UK in 2012 was 765 compared to 638 in 2001 – an increase of +19.9%.

The 2012 Census shows that female economic activity rates in the both the 25 - 54 and 55 - 64 age groups have continued to increase by +8.7 percentage points and +1.4 percentage points respectively compared to 2001. However, male economic activity rates in these age groups have declined by -0.4 percentage points and -6.7 percentage points respectively over the same period. The decrease in the economic activity rate for males in the 55 - 64 age group continues to be largely accounted for both by the increasing trend for males to retire from the public service at the age of 55 and for men generally to retire younger.

Table U: Number of Self-Employed Persons, 2001 and 2012

	2001	2012
Gibraltar	953	827
UK and Other British	213	254
Moroccan	94	23
Spanish	8	27
Other EU	34	72
Other	74	44
TOTAL	1,376	1,247

The number of persons who defined themselves in self-employment fell by -9.4% (-129) compared with 2001. It should, however, be noted that there were 169 persons who stated they were in employment without identifying whether this was on a self-employed or employee basis. The drop was more significant both within Gibraltar and Moroccans with numbers falling by -126 (-13.2%) and -71 (-75.5%). However, the number of self-employed UK and Other British and Other EU nationals increased by +41 (+19.2%) and +38 (+111.8%) respectively.

Table V: Number of Full-Time Employees by Industry, 2001 and 2012

	2001	2012	Change	% Change
Shipbuilding	160	102	-58	-36.3
Other Manufacture	97	105	8	8.2

TOTAL	9,362	10,946	+1,584	+16.9

Table W: Number of Full-Time Gibraltarian Employees by Industry, 2001 and 2012

	2001	2012	Change	% Change
Shipbuilding	130	87	-43	-33.1
Other Manufacture	63	84	+21	+33.3
Electricity and Water Supply	218	268	+50	+22.9
Construction	793	704	-89	-11.2
Wholesale and Retail Trade	1,023	864	-159	-15.5
Hotels and Restaurants	102	82	-20	-19.6
Transport and Communication	625	753	+128	+20.5
Financial Intermediation	698	754	+56	+8.0
Real Estate and Other Business Activities	632	924	+292	+46.2
Public Administration and Defence	1,805	1,839	+34	+1.9
Education	458	611	+153	+33.4
Health and Social Work	647	837	+190	+29.4
Other Services	333	645	+312	+93.7
Not Stated	-	46	+46	
TOTAL	7,527	8,498	+971	+12.9

The 2012 Census figures show that full-time employment has grown by +16.9% (+1,584 jobs). The most significant area of growth was in the Other Services industry where jobs increased by more than double (+133.2%) compared with the level recorded in 2001. This no doubt reflects the increased number of employment opportunities within the Gaming industry over the eleven-year period. The Education and Health and Social Work industries have also witnessed significant increases in the number of full-time persons employed +31.1% and +38.3% respectively. Employment within the Public Administration and Defence industry has remained largely similar compared to that of 2001 as the rundown in the presence of the MOD in terms of employment at the time has now levelled off. It should be borne in mind that the employment statistics shown in this Report are in respect of usually-resident persons and, as such, exclude frontier workers who commute daily to work in Gibraltar and who may be included in other employment statistics published by HM Government of Gibraltar. In terms of

full-time employment of Gibraltarians, the 2012 Census figures show that this has grown by +12.9% (+971 jobs) over the period.

Table X: Employed Persons by Occupation Group, 2001 and 2012

	2001	2012	Change	% Change
Managers and Senior Officials	1,745	2,815	1,070	+61.3
Professional	1,146	1,591	445	+38.8
Associate Professional and Technical	1,484	1,951	467	+31.5
Administrative and Secretarial	2,625	2,555	-70	-2.7
Skilled Trades	1,331	945	-386	-29.0
Personal Service	452	744	292	+64.6
Sales and Customer Service	911	958	47	+5.2
Process, Plant and Machine Operatives	632	700	68	+10.8
Elementary	1,880	1,719	-161	-8.6
Not Stated	-	260	260	
TOTAL	12,206	14,238	2,032	+16.6

The total number of usually-resident persons in employment increased by +16.6% (+2,032) in 2012 compared with 2001. The Managers and Senior Officials occupation showed the largest increase with a rise of +61.3% (+1,070 jobs). Equally, the Professional and Associate professional and Technical occupation groups grew by a combined +34.7% (+912 jobs).

Table Y: Percentage of Full-Time Employees by Age Group, Sector, and with an Occupational Pension Scheme, 2012

Age Group	Sector	
	Private	Public
15 - 17	0.0	0.1
18 - 24	5.0	5.1
25 - 54	82.0	83.9
55 - 59	8.5	7.5
60 - 64	3.4	2.8
65 and over	1.0	0.6
TOTAL	100.0	100.0

* Total percentages may not add up to 100.0 as a result of rounding off.

The 2012 Census included questions on the labour market to a much greater degree than has hitherto been the case. New questions were included in areas covering occupational pension schemes, planned retirement age, unemployment, alternative skills etc. It is thus not possible to compare these statistics with those of other previous Censuses as no equivalent questions have been asked historically.

Table Z: Percentage of Full-Time Employees by Age Group, Sector, and without an Occupational Pension Scheme, 2012

Age Group	Sector	
	Private	Public
15 - 17	0.4	2.1
18 - 24	17.1	22.4
25 - 54	67.5	65.4
55 - 59	7.2	6.7
60 - 64	4.8	2.6
65 and over	3.0	0.8
TOTAL	100.0	100.0

Tables Y and Z show that, in relative terms, the difference by age group between the private and public sectors in respect of full-time employees who either belong to an occupational pension scheme or who do not, is somewhat marginal. However, as Table AA shows, the Census 2012 figures show that there is a very significant difference between the private and public sectors in terms of the number of persons in full-time employment who are members of an occupational pension scheme.

Table AA: Full-Time Employees by Sector and Occupational Pension Scheme, 2012

Private		%
With Occupational Pension Scheme	2,406	38.2
Without Occupational Pension Scheme	3,894	61.8
TOTAL	6,300	100.0
Public		
With Occupational Pension Scheme	3,412	75.1
Without Occupational Pension Scheme	1,134	24.9
TOTAL	4,546	100.0

Table BB: Full-Time Employees by Sector and Planned Retirement Age, 2012

Private Sector			
Age	Number	%	
50	76	1.2	
55	306	4.8	
60	1,044	16.5	
65	1,032	16.3	
Don't Know	3,869	61.2	
TOTAL	6,327	100.0	
Public Sector			
Age	Number	%	
50	102	2.2	
55	979	21.4	
60	1,123	24.6	
65	502	11.0	
Don't Know	1,865	40.8	
TOTAL	4,571	100.0	

Table BB shows that 61.2% and 40.8% of full-time employees in the private and public sectors respectively did not know at what age they would retire. Only a small minority, 1.2% in the private sector and 2.2% in the public sector, planned retiring at age 50. The most pronounced difference was in respect of those employees planning to retire at age 55 where 21.4% of those in the public sector stated this intention compared with 4.8% in the private sector.

Table CC: Method of Travel to Work: 1981 - 2012

Year	On Foot	Bus	Bicycle	Motorcycle	Car/Van
1981	6,431	602	218	306	4,907
1991	6,057	266	118	2,255	3,605
2001	4,461	216	115	2,951	4,463
2012	6,007	727	181	3,664	3,475

Table DD: Percentage of Method of Travel to Work: 1981 - 2012

Year	On Foot	Bus	Bicycle	Motorcycle	Car/Van
1981	51.6	4.8	1.7	2.5	39.4

1991	49.2	2.2	1.0	18.3	29.3
2001	36.5	1.8	0.9	24.2	36.6
2012	42.7	5.2	1.3	26.1	24.7

The method of travel to work in 2012 compared with 2001 shows that in absolute terms, with the exception of those travelling by car or van, every other means of transport witnessed an increase. To a certain extent, the increases reflect the larger number of persons in employment compared with other Census years. A more meaningful comparison is shown in Table DD where the method of travel to work is shown in proportion to the persons identified within each category. This shows that, in relative terms, a significantly greater number of persons have travelled to work on foot and by bus than in 2001. Those travelling by bicycle and motorcycle have also increased but by smaller percentage amounts. There has been a significant fall in the number of people driving to work, from 36.6% in 2001 to 24.7% in 2012. The figures in respect of 2012 exclude 184 persons in employment who did not state their method of travel to work.

6. Mortality and Life Expectancy

Table EE: Mortality Rate per Thousand Population, 2002 - 2012

Year	Male	Female	Total	Deaths per Thousand	
				Population	of Population
2002	117	125	242	28,454	8.5
2003	120	114	234	28,705	8.2
2004	127	115	242	28,991	8.3
2005	112	137	249	29,313	8.5
2006	107	123	230	29,672	7.8
2007	94	108	202	30,066	6.7
2008	106	121	227	30,496	7.4
2009	125	109	234	30,963	7.6
2010	116	115	231	31,465	7.3
2011	118	123	241	32,003	7.5
2012	143	121	264	32,577	8.1

In a small population with a low number of deaths each year, it is customary to base calculations of crude mortality rates on the average number of deaths over a number of years. For the purpose of this Report, the crude mortality rate over the period 2002 to 2012 has been calculated by dividing the number of deaths each year by the civilian population figure for each year i.e. this includes the families of UK Servicemen and UK-based

MOD civilians and their families and multiplying this by one thousand to provide the number of deaths per thousand of population.

It must be noted, that the population figures for the years 2002 to 2011 inclusive have been re-estimated on the basis of interpolation from the 2001 and 2012 Censuses population figures. A similar adjustment was carried out on the published population figures over the period 1971 to 1980 once the 1981 Census results were available. This results in a smoothing out of the annual population increases over the period which, if left unadjusted would have meant that, between 2011 and 2012, the population of Gibraltar would have increased by +9.5% (+2,825) in one year alone. The population increase between 2011 and 2012, on the basis of the interpolated figures, was +1.8% (+574) with the net births figure alone accounting for an increase of +197 in the year.

Table FF: Life Expectancy, 2012

Age Groups	Males Expectation of Life at Age Group	Females Expectation of Life at Age Group
0	80.9	85.6
1	80.1	84.6
2	79.1	83.6
3	78.1	82.6
4	77.2	81.6
5 - 9	76.2	80.6
10 - 14	71.2	75.6
15 - 19	66.2	70.6
20 - 24	61.3	65.6
25 - 29	56.5	60.7
30 - 34	51.6	55.7
35 - 39	46.8	50.8
40 - 44	41.9	45.9
45 - 49	37.2	41.1
50 - 54	32.5	36.3
55 - 59	28.0	31.5
60 - 64	23.6	27.0
65 - 69	19.4	22.5
70 - 74	15.3	18.3
75 - 79	12.1	14.5

80 - 84	9.2	11.2
85 and over	7.2	9.0

Table GG: Comparative Life Expectancy, 1970 – 2012

	Males	Females
	Expectation of Life in Years at Birth	Expectation of Life in Years at Birth
1970	68.6	72.5
1981	71.4	75.5
1991	73.4	80.4
2001	78.5	83.3
2012	80.9	85.6

The expectation of life at birth for both males and females has increased once again when compared with those of the previous Census. The gap between female and male life expectancy is estimated at 4.7 years whereas the gap at the time of the 2001 Census stood at 4.8 years. Life expectancy over the period 1970 to 2012 has increased by +12.3 years (+17.9%) for males and by +13.1 years (+18.1%) for females.

7. Accuracy

Every effort was made to try to ensure that all persons were included in the Census. However, there will always be some individuals who, for a number of reasons, would not be included. As has been the case with previous Censuses taken in Gibraltar, the 2012 Census achieved a very high standard of accuracy and coverage.

In spite of every endeavour and careful editing and checking of the Census Forms, it is inevitable that some errors will occur. However, I am confident that the number of such unscheduled errors has been extremely small particularly given the fact that a very significant amount of data was processed and analysed in preparation of this Report.

H.M GOVERNMENT OF GIBRALTAR

2012 CENSUS OF GIBRALTAR

NOTICE TO HOUSEHOLDERS

1. A population Census of Gibraltar will be taken in respect of all persons present in Gibraltar on **MONDAY 12 NOVEMBER 2012**.
2. The information the Census provides is important to the Government and other organisations in formulating policies concerning employment, housing, education, health, transport and other needs. The statistical information obtained from the Census will also be useful to the business community and
3. Each person will need to answer a number of questions. In addition, the householder is asked to answer questions on housing. It is essential that all answers, where applicable, are entered correctly and
4. Households that have members away from home on Monday 12 November 2012, for example, studying abroad or temporarily ill in hospital, should include them on the Census Form.
5. Arrangements have been made with the Services in respect of the armed forces, UK-based civilians and their families.
6. Every household should receive a Census Form on or before 12 November. However, if by that evening the household has not received a Census Form, they should contact the:

CENSUS OFFICE
99 Harbours Walk
New Harbours
Gibraltar
Telephone: 20052541
[Email: census@gibraltar.gov.gi](mailto:census@gibraltar.gov.gi)

7. Alternatively, the Census Form is available online and can be downloaded from the Government website at www.gibraltar.gov.gi/statistics/census
8. Enumerators will collect completed Census Forms as from 13 November 2012 and will assist householders if they have any difficulty in completing the Form.
9. Please have the Census Form ready for collection by Tuesday 13 November 2012

CENSUS COMMISSIONER

NOVEMBER 2012

2012 CENSUS OF GIBRALTAR

Census
Office

MONDAY 12 NOVEMBER 2012

Census 2012

The 2012 Census will take place on **Monday 12 November 2012** with the purpose of obtaining an accurate count of Gibraltar's population. The Census will assist the Government and other organisations in formulating policies to allocate resources more effectively. Be a part of the 2012 Census and help us plan ahead.

Legal obligation

In accordance with the Census Act, taking part in the Census is compulsory and very important. Persons who refuse to give information or wilfully give false information could be liable, on conviction to a fine.

Confidentiality is guaranteed

Your personal information is protected by the provisions of the Census Act and the Data Protection Act. The information given on this Census Form will therefore be treated in the STRICTEST CONFIDENCE.

Who should complete this Census Form?

The Householder is responsible for ensuring that this questionnaire is completed and returned. The Householder is the person who lives, or is present, at this address who:

owns/rents (or jointly owns/rents) the accommodation; and/or
is responsible (or jointly responsible) for paying the household bills and expenses.

A Household is:

-one person living alone; or

-a group of people (not necessarily related) living at the same address who share cooking facilities and share a living room or sitting room or dining area.

What should you complete on this questionnaire?

PART A - *Household questions on page 3* relate to mainly housing and should be completed by the Householder.

PART B - *Individual questions on pages 4 to 11* should be completed where relevant, in respect of all persons usually resident at this address, including any person studying abroad, temporarily ill in hospital etc..

Please remember to sign the declaration below after completing and checking Parts A and B.

Your Census Enumerator

You will be assigned a Census Enumerator who, aside from delivering and collecting Census Forms, will be available to help you should you have any questions about the Census. The Census Office is available for further assistance.

Have your Form ready for collection

Enumerators will begin collecting completed Census Forms as from Tuesday 13 November 2012. Please have your Census Form ready on this date.

The Census Office would like to take this opportunity to **thank you** for completing your Census of Gibraltar Form.

E-mail

Please give your telephone number and/or e-mail. This is required in case of any queries.

EXPLANATORY NOTES

PART A

HOUSEHOLD QUESTIONS

Question 1 In the Co-ownership Scheme the Householder shares the ownership of the property with the Government. Examples of this include 50/50, 60/40, 70/30 or any other basis.

Questions 3 & 4 A visitor from abroad is a person in Gibraltar on holiday, on a business trip, visiting relatives or friends and who will be in Gibraltar for only a short period. A boarder is a person who lives with the Householder and shares cooking facilities with the Household who has stayed or intends to stay in Gibraltar for 12 months or more.

Questions 5 & 6 Exclude kitchen, bathrooms, corridors, hallways and utility rooms or rooms that can only be used as a cupboard. Rooms divided by curtains or portable screens count as one room and those divided by a fixed or sliding partition count as two rooms. If two rooms have been converted into one, count them as one room.

PART B

INDIVIDUAL QUESTIONS

Question 4 If British, tick whether the person is Gibraltarian or UK British. A person who is entitled to be registered as a Gibraltarian should be included as Gibraltarian and NOT as UK British. Persons entitled to be registered as a Gibraltarian include any British National who:

- is born in Gibraltar and is the child of a person who is registered in the Register of Gibraltarians; or
- is the spouse, widow or widower of a person entitled to be registered in the said Register; or
- is the descendant of a person entitled to be registered in the said Register

Other EU includes Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia and Sweden.

Question 6 Where the date of birth is NOT known, state the year of birth.

Question 13 For the purposes of this question, CSE Grade 1 and GCE 'O' Level passes at Grades A-C or the earlier GCE 'O' Level passes at Grades 1-6 are equivalent to GCSE Grades A*-C.

Question 25 Occupation: If a person's job is known in a trade or industry by a specific name then use that name. Use precise terms such as garage mechanic etc. and for public sector employees in the administrative service state whether you are a head of department, an administrative officer etc..

Question 27 Examples of other qualified occupational skills include: a lawyer who is also a qualified accountant etc..

PART B INDIVIDUAL QUESTIONS CONTINUED (Exclude visitors from outside Gibraltar)
 Please read the notes on page 2 carefully before completing this part and tick the relevant boxes.

PERSON 4

8. Do you stay at another address for more than 30 days a year? (Exclude holiday and business travel)

No
 Yes, at another Gibraltar address
 Yes, at an address outside Gibraltar
 Yes, at a student's term-time address

9. How is your health in general?

Very good Good
 Fair Bad
 Very bad

10. Are your day-to-day activities limited because of a health problem or disability which has lasted, or is expected to last, at least 12 months?

Yes, limited a lot
 Yes, limited a little
 No

PERSON 5

8. Do you stay at another address for more than 30 days a year? (Exclude holiday and business travel)

No
 Yes, at another Gibraltar address
 Yes, at an address outside Gibraltar
 Yes, at a student's term-time address

9. How is your health in general?

Very good Good
 Fair Bad
 Very bad

10. Are your day-to-day activities limited because of a health problem or disability which has lasted, or is expected to last, at least 12 months?

Yes, limited a lot
 Yes, limited a little
 No

PERSON 6

8. Do you stay at another address for more than 30 days a year? (Exclude holiday and business travel)

No
 Yes, at another Gibraltar address
 Yes, at an address outside Gibraltar
 Yes, at a student's term-time address

9. How is your health in general?

Very good Good
 Fair Bad
 Very bad

10. Are your day-to-day activities limited because of a health problem or disability which has lasted, or is expected to last, at least 12 months?

Yes, limited a lot
 Yes, limited a little
 No

For Persons Aged 14 And Over, Continue

11. How well can you speak English?

Very well Well
 Not well Not at all

12. Do you look after, or give any help to family members, friends, neighbours or others because of either: long-term physical or mental ill-health/disability or problems related to old age? (Exclude persons in permanent care institutions)

No
 Yes, 1-19 hours a week
 Yes, 20-49 hours a week
 Yes, 50 or more hours a week

11. How well can you speak English?

Very well Well
 Not well Not at all

12. Do you look after, or give any help to family members, friends, neighbours or others because of either: long-term physical or mental ill-health/disability or problems related to old age? (Exclude persons in permanent care institutions)

No
 Yes, 1-19 hours a week
 Yes, 20-49 hours a week
 Yes, 50 or more hours a week

11. How well can you speak English?

Very well Well
 Not well Not at all

12. Do you look after, or give any help to family members, friends, neighbours or others because of either: long-term physical or mental ill-health/disability or problems related to old age? (Exclude persons in permanent care institutions)

No
 Yes, 1-19 hours a week
 Yes, 20-49 hours a week
 Yes, 50 or more hours a week

PART B INDIVIDUAL QUESTIONS CONTINUED (Exclude visitors from outside Gibraltar)

Please read the notes on page 2 carefully before completing this part and tick the relevant boxes.

PERSON 1

13. Which of these qualifications do you have? (Tick all that apply)

- 1-4 O levels/CSEs/GCSEs Grades A*-C
- 5 and over O levels/CSEs/GCSEs Grades A*-C/ 1 A-level, 2-3 AS levels
- 2 and over A levels, 4 and over AS levels
- Degree (BA, BSc, LLB)
- Higher degree (MA, PhD)
- NVQ Level 1, Foundation GNVQ
