Dear Kash,

On behalf of ICANN, Telnic Ltd. is hereby authorized to deploy Internationalized Domain Names (IDNs) on the basis of its commitment to adhere to the "Guidelines for the Implementation of Internationalized Domain Names." The current Guidelines are viewable at <http://www.icann.org/en/topics/idn/idn-guidelines-26apr07.pdf>. Telnic's leadership is a model of promoting the coordination of the domain-name system in the public interest, which is a vital aspect of missions of both ICANN and Telnic.

Accordingly, on behalf of ICANN and acting under ICANN Board resolution 03.48, Telnic is granted written approval for the deployment of IDNs in compliance with the provisions of the current version "Guidelines for the Implementation of Internationalized Domain Names" including by using tagged domain names beginning with "xn--" as specified in Appendix 6 of the Registry Agreement between Telnic and ICANN.

ICANN looks forward to supporting the efforts of Telnic and others to promote the responsible deployment of IDNs based on the principles stated in the Guidelines.

Kind regards,

Craig Schwartz  
Chief gTLD Registry Liaison
