Subject: Letter of support for the Restricted Use of the Top Level Domains, ".INC", ".LLC", ".CORP",
and ".LLP"

To Whom It May Concern:

This letter confirms that the Office of the Rhode Island Secretary of State is charged with registering businesses in the State of Rhode Island. In addition, this office monitors the position of good standing each of these businesses maintains as well as their overall right to conduct business transactions or commerce within the United States. The companies registered with this office are members of the larger community of registered U.S. Businesses which can be further divided into the following designations: The Community of Registered Corporations, the Community of Registered Limited Liability Companies, and the Community of Limited Liability Partnerships.

We understand that the Internet Corporation for Assigned Names and Numbers (ICANN) is in the process of reviewing applications that refer to the business entity designations of INC, LLC, LLP and CORP. This office has been informed that DOT Registry, LLC has submitted community applications for these strings, with restrictions that are intended to protect U.S. companies that are registered with the Secretary of State. With the growing national concern related to fraudulent business registration, business identity theft, and online consumer protection, this office believes that these strings should only be issued under a community designation in order to protect both the members of this community and consumers at large.

Our office believes that specific restrictions and policies must be in place to protect the community of U. S. Registered Businesses and to ensure that these extensions are only representative of members of their respective communities as verified through their Secretary of State's Office.

Sincerely,

A. Ralph Mollis
Secretary of State
