Re: Registry Request #2011003 .ASIA 1and 2 Character Allocation Proposal.

Dear Ching,

This letter is to inform you that ICANN has approved DotAsia's proposed amendment to allocate One and Two-Character Names.

ICANN's preliminary determination did not identify any significant competition or security and stability issues. Furthermore, similar requests have been approved for other gTLD registries and that the public comment on the request received one relevant submission, and it was supportive.

DotAsia may proceed with the allocation of One and Two-Character Names based upon this framework.

Sincerely,

Karla Valente
