

# **CSC Findings of IANA Naming Function Performance Report for the Month of January 2024**

Date: 14 February 2024

---

## **Overall finding**

The CSC completed review of the January 2024 IANA Naming Function Performance Report and finds that PTI's performance for the month was:

Satisfactory – PTI met the service level agreement for 98.4% of defined metrics.

This was due to missing the SLA of: Technical Check (Retest) - Routine (Technical).

The missed SLA has been satisfactorily explained by PTI and the CSC has determined that this exception is no cause for concern. No persistent problems were identified and no further action is needed.

## **Metrics that the CSC is tracking closely**

Currently, there are no metrics requiring close tracking.

## **SLA metrics that are in the process of being changed**

Currently, there are no SLAs in the process of being changed.

## **Report of escalations**

No new escalations were received during the reporting period.
