Sponsor's Monthly Report for .coop TLD

Date: 2nd May 2002

Reporting period: April 2002

General

As system is currently operating without registrars and therefore without a standard registrar interface, some of the standard reporting is either not applicable or not available. The report has been left in a standard format and more information will be added as the system is migrated to support registrars and the additional information is captured.

In this report the terms "dotCoop", "Registry" and "Sponsor" refer to DotCooperation, LLC the Sponsor of the dotCoop TLD.

1. Accredited Registrar Status –
(Report not applicable until September, 2002)

Table 1 displays the current number and status of the ICANN accredited registrars. The registrars are grouped into three categories:

Operational registrars: Those who have authorized access into the Sponsor's registry system for processing domain name registrations.

Registrars in the Ramp-up Period: Those who have received a password to access the dotCoop operational test and evaluation (OT&E) environment. The OT&E environment is provided to allow registrars to develop and test their systems with the dotCoop LLC registry system**.**

Registrars in the Pre-Ramp-up Period: Those who have been sent a welcome letter from dotCoop, but have not yet executed the Registry Confidentiality Agreement and/or have not yet submitted a completed Registrar Information Sheet. In most cases registrars are sent welcome letters via email on the same day accreditation notification is received from ICANN.
