

Letter of Motivation
Consumer Trust and Consumer Choice Review Team
Samuel Akinsola

CCT-Review Team.

My motivation to volunteer for the Consumer Trust and Consumer Choice Review Team (CCT-RT) is driven by a desire to see ICANN succeed. ICANN has really come a long way for actively contributing to the world technology charter for over 16years now and this is something great to be reckon with.

I am a growing professional in the field of Network Security and Computer Forensics where I have started playing interesting contributions in the ICT world. I am very familiar with ICANN and will be attending the next conference in Morocco. During one of the recent ICT summit for AfICTA I attended I met with Rudi Vasnick and advised me that I can have my own charter for my country and help my country have its own registry of which I am now trying to push for. The technical terms used in the ICANN association is not new to me and I have a long term interest to volunteering for this organization review team as the first young person in my country.

If selected, I would be committed to engage in an objective and constructive review process of ICANN's responsibilities as defined in the Affirmation of Commitments and look forward to the opportunity to contribute to the maturation of ICANN with suggestions as to how ICANN can also be more recognized with numerous internet users who do not know about ICANN and therefore also generating business interest with other large corporations and governments

Yours Truly

Samuel Akinsola
