Subject: Re: Liaison with LNI 4.0: draft sharing IEEE 802.1 WG and LNI 4.0

Dear Karen,

LNI 4.0 e.V. thankfully appreciates and honors our cooperation and the high level of trust that we meet with.

We developed the LNI 4.0 TSN testbed over the past 3 years such that we are able to neutrally and pre-competitively test draft versions of your organization.

Hence, I would be very grateful if you could send LNI 4.0 the latest draft versions of:

- IEEE P802.1CS
- IEEE P802.1Qdd
- IEEE P802.1AS-Rev
- IEEE P802.1ABcu
- IEEE P802.1Qcr
- IEEE P802.1Qcw
- IEEE P802.1CQ
- IEEE P802.1CBcv
- IEEE P802.1CBdb

Vice versa, LNI 4.0 will always inform you about our work.

I attach your letter to this email to acknowledge that we are aware of the situation that some versions were in an too early stage to be send. This might have changed partially in the meantime is our hope.

With kind regards and thanks,

Dr. Dominik Rohrmus, Labs Network Industrie 4.0 e.V. (LNI 4.0), CTO
