

Comments on P802.15.4aa PAR & CSD

From 802.1

PAR

5.5 Need for the Project

- The acronym PAN is used without definition. Spell out on first usage or add to 8.1 Explanatory notes.

CSD

Project Name

- The PAR has indicated this project will be called P802.15.4aa. The CSD calls the project 802.15.4xx. Replace 'xx' with 'aa' in the CSD

Template

- The CSD appears to be using an old template that still includes the Balanced costs (infrastructure versus attached stations) section. Use the current template available from <https://www.ieee802.org/devdocs.shtml>

Economic Feasibility

- Installation costs for this new capability are different than manufacturing methods. Explain any costs associated with upgrading to this new capability.
