ITU-T SG15 Q10 has progressed draft updates of Recommendations ITU-T G.8021 and G.8012 towards consent in December 2021.

This work is in continuation of the work detailed in our liaison SG15-LS271 approved 18 September 2020. This is based in part on suggestions from IEEE 802.1 regarding clauses 6, 8 and 9 of Recommendation ITU-T G.8021. Your review of the enclosed draft documents would be appreciated. Please note that these documents are work in progress and should not be shared outside of your organization.

ITU-T SG15 would like to express its appreciation for the continued useful exchange of information on Ethernet standards and looks forward to further interaction between our organizations.

ITU-T Q10/15 will next meet electronically 30 July 2021, 1 October 2021 and during the December 2021 ITU-T SG15 plenary meeting.
