Keywords: IEEE 802.1; Std 802.1D-2004

Abstract: This liaison statement contains the reply of ITU-SG9 on withdrawal of IEEE Std 802.1D-2004.

ITU-T SG9 would like to thank IEEE 802.1 for the liaison statement on withdrawal of the IEEE standard [IEEE Std 802.1D-2004] “IEEE Standard for Local and metropolitan area networks-Media Access Control (MAC) Bridges” (Ref.: [IEEE 802.1-D-2004](#)). We understood that the content of that standard is revisited in standard [IEEE 802.1Q-2018] “IEEE Standard for Local and Metropolitan Area Networks—Bridges and Bridged Networks”.

We have considered this revision in our related ITU-T Recommendations and will take action as appropriate. We would be pleased to be kept informed on any further update from IEEE on this topic.
