Dear Colleagues,

This liaison statement provides a response to the liaison in JCA-IMT2020-LS11 including an update
(shown as shaded cells) to the list of IEEE 802.1 documents contained in the IMT-2020 roadmap for non-
radio aspects and activity related to 5G and beyond. The update is contained in Attachment-2022-11.

Thank you for your consideration on this topic. We look forward to continued collaboration between our
organizations.

Respectfully submitted,
Glenn Parsons
Chair, IEEE 802.1 Working Group
