What will NOT go to WG discussion

- Simple editorial (typos, formalities, capitalization, formatting, ...)
- Legal questions on AUTOSAR - Will (first) clarify with IEEE staff
- Comments on Clause 0 as it will be removed before publication
 - should previous draft editorial notes be removed for every draft to avoid confusion?

Changes to the PAR

- Comments 14, 84
 - Where must the PAR be quoted? (1.2?)
 - Reduction in scope should not be a reason to change the PAR
- Comment 85
 - Adapt the Introduction (1.3) to outline reduced scope from the PAR

Past Comments and Contributions

- Comment 147: “The comment resolution of many comments was not applied to the draft.”
- PROPOSED REJECT:
Please list out which comments were not implemented considering the contributions since, as they may have outdated those comments.
