ER§	63§	33.3§

§ included some late ballots, not listed in:
https://standards.caot.ict.ericsson.net/ethernet/web_tally/05f46.html

What will NOT go to WG discussion

- Simple editorial (typos, formalities, capitalization, formatting, ...)
- Comments on Clause 0 as it will be removed before publication
 - should previous draft editorial notes be removed for every draft to avoid confusion?

AUTOSAR

- There are 3 technical options:
 - “copy” IEEE Std 802.1AS + ASdm - conflicts with:
<https://www.ieee802.org/1/files/public/docs2023/dg-Nomura-JASPAR-Use-Cases-coexistence-0323-v07.pdf>
 - “copy” AUTOSAR specification - exact (legal) implications are unknown and may be difficult to resolve
 - create a “3rd new” Profile - this is utterly undesirable!
- Postpone a more detailed discussion to F2F Plenary in Berlin!

Changes to the PAR?

- Comments 14, 84
 - Where must the PAR be quoted? (1.2?)
 - Reduction in scope should not be a reason to change the PAR
- Comment 85
 - Adapt the Introduction (1.3) to outline reduced scope from the PAR

Past Comments and Contributions

- Comment 147: “The comment resolution of many comments was not applied to the draft.”
- PROPOSED REJECT:
Please list out which comments were not implemented considering the contributions since, as they may have outdated those comments.

Technical discussion

- 7. Congestion Isolation
 - Comments 153, 38
- 5.6 Conformance Module Ingress Selection (CM-IS)
 - Comments 91, 92, 94,
- VLAN Support
 - Comments 7, 148, 30, 51, 59, 157, 58, 156
- Shaper Combinations
 - Comments 150, 26, 74, 28, 152
