Email: malcolm.betts@zte.com.cn

ITU-T SG15 thanks the MPLS WG for its liaison providing comments on G.8110.1. These comments were addressed during the 31 May-11 June 2010 of SG15 and an updated version of G.8110.1 was produced. The meeting agreed that the text attached to this liaison statement is ready for consent, however the meeting could not reach consensus to consent this text because of the number of normative references that are not yet available as RFCs. It was tentatively agreed to hold an interim meeting of WP3 in November to consent revised draft Recommendation G.8110.1.

If you have any further comments please provide them before the deadline indicated above.
