Q7/16 would like to thank IETF for the LS that provided information about the work done at the IETF on Internationalized Domain Names (IDN). [Reference: your [IETF LS 1019](#), our [TD 368/Gen-16](#)]

Q7/16 acknowledged your concern about the risk of overlap between the IDN “visual confusion” initiative in the ITU-T with work done in other SDOs and will work first on a charter for the Q7/16 work. Q7/16 will forward a proposed charter to the IETF once it will be available as a contribution.
