21 **Subject: Flow Based Prepaid**  
22

23 Dear Thomas,  
24

25  
26 3GPP2 has specified the flow based accounting using RADIUS protocol in X.S0011-D and is  
27 currently working on flow based prepaid accounting using RADIUS extension.  
28

29 3GPP2 has become aware of the IETF RADEXT working group's current efforts to specify a  
30 RADIUS Extension for support charging of flow based prepaid service, as described in draft-lior-  
31 radius-prepaid-extensions-07.txt.  
32

33 We are interested in applying the RADIUS Prepaid extension to support flow based prepaid  
34 accounting in 3GPP2 networks. We would greatly appreciate if you could provide us the target  
35 completion dates of the above draft and also let us know any other relevant work that can be  
36 useful for 3GPP2.  
37

38  
39 Regards,  
40  
41  
42

43 AC Mahendran  
44 3GPP2 Liaison to IETF  
45
