20 Mr. Tim Polk  
21 Security Area Director  
22 [tim.polk@nist.gov](mailto:tim.polk@nist.gov)

23 Dear Thomas, Sam, and Tim,

24 3GPP2 has adopted an EAP Re-authentication Protocol for the Packet Data Network Evolution  
25 based on the following drafts:

- 26
- 27 1. EAP Re-authentication Extension: <ftp://ftp.rfc-editor.org/in-notes/internet-drafts/draft-ietf-hokey-erx-03.txt>
  - 28 2. Specification for the Derivation of Root Keys from an Extended MasterSession Key (EMSK):  
29 <ftp://ftp.rfc-editor.org/in-notes/internet-drafts/draft-ietf-hokey-ems-k-hierarchy-01.txt>

30  
31 In addition, we need one of the following drafts for Domain-specific Key Delivery for RADIUS. We  
32 also request the RFC for the corresponding Diameter AVPs.

- 33
- 34 - RADIUS attributes for Domain-specific Key Request and Delivery: <ftp://ftp.rfc-editor.org/in-notes/internet-drafts/draft-gaonkar-radext-erp-attrs-00.txt>
  - 35 - RADIUS Attributes for the Delivery of Keying Material: <ftp://ftp.rfc-editor.org/in-notes/internet-drafts/draft-zorn-radius-keywrap-13.txt>

36  
37 These drafts are essential for the timely publication of 3GPP2 Converged Access Network  
38 specification (X.S0054) and Interoperability Specification (A.S0020) targeted for October 2007.  
39 We request your support in processing these drafts as quickly as possible. Please note that  
40 3GPP2 participants who are also the authors of some of these drafts are willing to work with  
41 IETF experts for a timely completion of these drafts.

42  
43 Many thanks for your consideration.

44  
45 Regards,  
46 \x\
