During SG 13 meeting (Geneva, 21 July – 1 August 2003), activities related to the management of the IP project have been achieved in WP 1/13. The version 7 of the IP Project description document has been updated on the basis of liaisons coming from concerned SGs, which have all been endorsed by SG 13.

SG 13 appreciates that Study Groups actively collaborate on updating the IP Project description, which provides the status of the ITU activities on IP to the telecommunication community.

The new version of the IP Project description is now version 8. It is provided on the ITU website for the IP Project:
