Subject: IETF – 3GPP2 Liaison Relationship

Dear Marc,

3GPP2 wishes to thank you for your email regarding the liaison relationship between IETF and 3GPP2.

We agree that there is very little activity for this liaison relationship currently or for the foreseeable future. Your suggestion that we close the liaison relationship is acceptable to us, and we understand that we will be able to contact the IETF in an “on demand” basis to pursue specific issues.

3GPP2 also wishes to thank the IETF for the successful relationship we have had on mutual matters.

Sincerely,

Dr. Xiaowu (Frankle) Zhao
Chair, 3GPP2 TSG-SX
