***INTERNATIONAL
TELECOMMUNICATION
REGULATIONS***

*GENEVA, 1989
ISBN 92-61-03921-9*

Note by the ITU General Secretariat

The Plenipotentiary Conference of the International Telecommunication Union (Nairobi, 1982), in its Resolution No. 10, resolved that a World Administrative Telegraph and Telephone Conference (WATTC-88) should be convened in 1988 to consider proposals for a new regulatory framework to cater for the new situation in the field of new telecommunication services. By the same Resolution, it also instructed the International Telegraph and Telephone Consultative Committee (CCITT) to prepare proposals for this purpose, and to submit them to the CCITT Plenary Assembly in 1988 for subsequent consideration by the WATTC-88.

The CCITT, in Resolution No. 15 of its VIIIth Plenary Assembly (Malaga-Torremolinos, 1984) resolved to set up a Preparatory Committee (PC) for WATTC-88, and that this PC should be responsible for preparing the draft text of the new Regulations to be submitted to the IXth CCITT Plenary Assembly in 1988.

The PC held four meetings and included in its final report, submitted to the IXth CCITT Plenary Assembly (Melbourne, 1988), the draft International Telecommunication Regulations. The IXth CCITT Plenary Assembly transmitted this final report to the WATTC-88.

The Administrative Council of the Union, at its 42nd session in 1987, adopted Resolution No. 966, in which it resolved that the WATTC-88 should be held at Melbourne from 28 November to 9 December 1988, inclusive, and established the agenda of the Conference.

In accordance with that Resolution of the Administrative Council, the World Administrative Telegraph and Telephone Conference convened at Melbourne during the period referred to above.

INTERNATIONAL
TELECOMMUNICATION
REGULATIONS

INTERNATIONAL TELECOMMUNICATION REGULATIONS

PREAMBLE

1 While the sovereign right of each country to regulate its telecommunications is fully recognized, the provisions of the present Regulations supplement the International Telecommunication Convention, with a view to attaining the purposes of the International Telecommunication Union in promoting the development of telecommunication services and their most efficient operation while harmonizing the development of facilities for world-wide telecommunications.

Article 1

Purpose and Scope of the Regulations

- 2** 1.1 a) These Regulations establish general principles which relate to the provision and operation of international telecommunication services offered to the public as well as to the underlying international telecommunication transport means used to provide such services. They also set rules applicable to administrations*.
- 3** b) These Regulations recognize in Article 9 the right of Members to allow special arrangements.

* or recognized private operating agency(ies)

- 4** 1.2 In these Regulations, “the public” is used in the sense of the population, including governmental and legal bodies.
- 5** 1.3 These Regulations are established with a view to facilitating global interconnection and interoperability of telecommunication facilities and to promoting the harmonious development and efficient operation of technical facilities, as well as the efficiency, usefulness and availability to the public of international telecommunication services.
- 6** 1.4 References to CCITT Recommendations and Instructions in these Regulations are not to be taken as giving to those Recommendations and Instructions the same legal status as the Regulations.
- 7** 1.5 Within the framework of the present Regulations, the provision and operation of international telecommunication services in each relation is pursuant to mutual agreement between administrations*.
- 8** 1.6 In implementing the principles of these Regulations, administrations* should comply with, to the greatest extent practicable, the relevant CCITT Recommendations, including any Instructions forming part of or derived from these Recommendations.
- 9** 1.7 a) These Regulations recognize the right of any Member, subject to national law and should it decide to do so, to require that administrations and private operating agencies, which operate in its territory and provide an international telecommunication service to the public, be authorized by that Member.
- 10** b) The Member concerned shall, as appropriate, encourage the application of relevant CCITT Recommendations by such service providers.

* or recognized private operating agency(ies)

- 11 c) The Members, where appropriate, shall cooperate in implementing the International Telecommunication Regulations (for interpretation, also see Resolution No. 2).
- 12 1.8 The Regulations shall apply, regardless of the means of transmission used, so far as the Radio Regulations do not provide otherwise.

Article 2

Definitions

- 13 For the purpose of these Regulations, the following definitions shall apply. These terms and definitions do not, however, necessarily apply for other purposes.
- 14 2.1 *Telecommunication*: Any transmission, emission or reception of signs, signals, writing, images and sounds or intelligence of any nature by wire, radio, optical or other electromagnetic systems.
- 15 2.2 *International telecommunication service*: The offering of a telecommunication capability between telecommunication offices or stations of any nature that are in or belong to different countries.
- 16 2.3 *Government telecommunication*: A telecommunication originating with any: Head of a State; Head of a government or members of a government; Commanders-in-Chief of military forces, land, sea or air; diplomatic or consular agents; the Secretary-General of the United Nations; Heads of the principal organs of the United Nations; the International Court of Justice,
or reply to a government telegram.

17 2.4 *Service telecommunication*

A telecommunication that relates to public international telecommunications and that is exchanged among the following:

- administrations;
- recognized private operating agencies,
- and the Chairman of the Administrative Council, the Secretary-General, the Deputy Secretary-General, the Directors of the International Consultative Committees, the members of the International Frequency Registration Board, other representatives or authorized officials of the Union, including those working on official matters outside the seat of the Union.

18 2.5 *Privilege telecommunication*

19 2.5.1 A telecommunication that may be exchanged during:

- sessions of the ITU Administrative Council,
- conferences and meetings of the ITU

between, on the one hand, representatives of Members of the Administrative Council, members of delegations, senior officials of the permanent organs of the Union and their authorized colleagues attending conferences and meetings of the ITU and, on the other, their administrations or recognized private operating agency or the ITU,

and relating either to matters under discussion by the Administrative Council, conferences and meetings of the ITU or to public international telecommunications.

20 2.5.2 A private telecommunication that may be exchanged during sessions of the ITU Administrative Council and conferences and meetings of the ITU by representatives of Members of the Administrative Council, members of delegations, senior officials of the permanent organs of the Union attending ITU conferences and meetings, and the staff of the Secretariat of the Union seconded to ITU conferences and meetings, to enable them to communicate with their country of residence.

- 21 2.6 *International route*: Technical facilities and installations located in different countries and used for telecommunication traffic between two international telecommunication terminal exchanges or offices.
- 22 2.7 *Relation*: Exchange of traffic between two terminal countries, always referring to a specific service if there is between their administrations*:
- 23 a) a means for the exchange of traffic in that specific service:
- over direct circuits (direct relation), or
 - via a point of transit in a third country (indirect relation), and
- 24 b) normally, the settlement of accounts.
- 25 2.8 *Accounting rate*: The rate agreed between administrations* in a given relation that is used for the establishment of international accounts.
- 26 2.9 *Collection charge*: The charge established and collected by an administration* from its customers for the use of an international telecommunication service.
- 27 2.10 *Instructions*: A collection of provisions drawn from one or more CCITT Recommendations dealing with practical operational procedures for the handling of telecommunication traffic (e.g., acceptance, transmission, accounting).

* or recognized private operating agency(ies)

Article 3

International Network

- 28** 3.1 Members shall ensure that administrations* cooperate in the establishment, operation and maintenance of the international network to provide a satisfactory quality of service.
- 29** 3.2 Administrations* shall endeavour to provide sufficient telecommunication facilities to meet the requirements of and demand for international telecommunication services.
- 30** 3.3 Administrations* shall determine by mutual agreement which international routes are to be used. Pending agreement and provided that there is no direct route existing between the terminal administrations* concerned, the origin administration* has the choice to determine the routing of its outgoing telecommunication traffic, taking into account the interests of the relevant transit and destination administrations*.
- 31** 3.4 Subject to national law, any user, by having access to the international network established by an administration*, has the right to send traffic. A satisfactory quality of service should be maintained to the greatest extent practicable, corresponding to relevant CCITT Recommendations.

Article 4

International Telecommunication Services

- 32** 4.1 Members shall promote the implementation of international telecommunication services and shall endeavour to make such services generally available to the public in their national network(s).

* or recognized private operating agency(ies)

- 33 4.2 Members shall ensure that administrations* cooperate within the framework of these Regulations to provide by mutual agreement, a wide range of international telecommunication services which should conform, to the greatest extent practicable, to the relevant CCITT Recommendations.
- 34 4.3 Subject to national law, Members shall endeavour to ensure that administrations* provide and maintain, to the greatest extent practicable, a minimum quality of service corresponding to the relevant CCITT Recommendations with respect to:
- 35 a) access to the international network by users using terminals which are permitted to be connected to the network and which do not cause harm to technical facilities and personnel;
- 36 b) international telecommunication facilities and services available to customers for their dedicated use;
- 37 c) at least a form of telecommunication which is reasonably accessible to the public, including those who may not be subscribers to a specific telecommunication service; and
- 38 d) a capability for interworking between different services, as appropriate, to facilitate international communications.

Article 5

Safety of Life and Priority of Telecommunications

- 39 5.1 Safety of life telecommunications, such as distress telecommunications, shall be entitled to transmission as of right and shall, where technically practicable, have absolute priority over all other

* or recognized private operating agency(ies)

telecommunications, in accordance with the relevant Articles of the Convention and taking due account of relevant CCITT Recommendations.

- 40** 5.2 Government telecommunications, including telecommunications relative to the application of certain provisions of the United Nations Charter, shall, where technically practicable, enjoy priority over telecommunications other than those referred to in No. 39, in accordance with the relevant provisions of the Convention and taking due account of relevant CCITT Recommendations.
- 41** 5.3 The provisions governing the priority enjoyed by all other telecommunications are contained in the relevant CCITT Recommendations.

Article 6

Charging and Accounting

- 42** 6.1 *Collection charges*
- 43** 6.1.1 Each administration* shall, subject to applicable national law, establish the charges to be collected from its customers. The level of the charges is a national matter; however, in establishing these charges, administrations* should try to avoid too great a dissymmetry between the charges applicable in each direction of the same relation.
- 44** 6.1.2 The charge levied by an administration* on customers for a particular communication should in principle be the same in a given relation, regardless of the route chosen by that administration*.

* or recognized private operating agency(ies)

- 45** 6.1.3 Where, in accordance with the national law of a country, a fiscal tax is levied on collection charges for international telecommunication services, this tax shall normally be collected only in respect of international services billed to customers in that country, unless other arrangements are made to meet special circumstances.
- 46** 6.2 *Accounting rates*
- 47** 6.2.1 For each applicable service in a given relation, administrations* shall by mutual agreement establish and revise accounting rates to be applied between them, in accordance with the provisions of Appendix 1 and taking into account relevant CCITT Recommendations and relevant cost trends.
- 48** 6.3 *Monetary unit*
- 49** 6.3.1 In the absence of special arrangements concluded between administrations*, the monetary unit to be used in the composition of accounting rates for international telecommunication services and in the establishment of international accounts shall be:
- either the monetary unit of the International Monetary Fund (IMF), currently the Special Drawing Right (SDR), as defined by that organization;
 - or the gold franc, equivalent to 1/3.061 SDR.
- 50** 6.3.2 In accordance with relevant provisions of the International Telecommunication Convention, this provision shall not affect the possibility open to administrations* of establishing bilateral arrangements for mutually acceptable coefficients between the monetary unit of the IMP and the gold franc.
- 51** 6.4 *Establishment of accounts and settlement of balances of account*
- 52** 6.4.1 Unless otherwise agreed, administrations* shall follow the relevant provisions as set out in Appendices 1 and 2.

* or recognized private operating agency(ies)

- 53 6.5 *Service and privilege telecommunications*
- 54 6.5.1 Administrations* shall follow the relevant provisions as set out in Appendix 3.

Article 7

Suspension of Services

- 55 7.1 If a Member exercises its right in accordance with the Convention to suspend international telecommunication services partially or totally, that Member shall immediately notify the Secretary-General of the suspension and of the subsequent return to normal conditions by the most appropriate means of communication.
- 56 7.2 The Secretary-General shall immediately bring such information to the attention of all other Members, using the most appropriate means of communication.

Article 8

Dissemination of Information

- 57 Using the most suitable and economical means, the Secretary-General shall disseminate information, provided by administrations*, of an administrative, operational, tariff or statistical nature concerning international telecommunication routes and services. Such information shall be disseminated in accordance with the relevant provisions of the

* or recognized private operating agency(ies)

Convention and of this Article, on the basis of decisions taken by the Administrative Council or by competent administrative conferences, and taking account of conclusions or decisions of Plenary Assemblies of the International Consultative Committees.

Article 9

Special Arrangements

- 58** 9.1 a) Pursuant to Article 31 of the International Telecommunication Convention (Nairobi, 1982), special arrangements may be entered into on telecommunication matters which do not concern Members in general. Subject to national laws, Members may allow administrations* or other organizations or persons to enter into such special mutual arrangements with Members, administrations* or other organizations or persons that are so allowed in another country for the establishment, operation, and use of special telecommunication networks, systems and services, in order to meet specialized international telecommunication needs within and/or between the territories of the Members concerned, and including, as necessary, those financial, technical, or operating conditions to be observed.
- 59** b) Any such special arrangements should avoid technical harm to the operation of the telecommunication facilities of third countries.
- 60** 9.2 Members should, where appropriate, encourage the parties to any special arrangements that are made pursuant to No. 58 to take into account relevant provisions of CCITT Recommendations.

* or recognized private operating agency(ies)

Article 10

Final Provisions

- 61** 10.1 These Regulations, of which Appendices 1, 2 and 3 form integral parts, shall enter into force on 1 July 1990 at 0001 hours UTC.
- 62** 10.2 On the date specified in No. 61, the Telegraph Regulations (Geneva, 1973) and the Telephone Regulations (Geneva, 1973) shall be replaced by these International Telecommunication Regulations (Melbourne, 1988) pursuant to the International Telecommunication Convention.
- 63** 10.3 If a Member makes reservations with regard to the application of one or more of the provisions of these Regulations, other Members and their administrations* shall be free to disregard the said provision or provisions in their relations with the Member which has made such reservations and its administrations*.
- 64** 10.4 Members of the Union shall inform the Secretary-General of their approval of the International Telecommunication Regulations adopted by the Conference. The Secretary-General shall inform Members promptly of the receipt of such notifications of approval.

IN WITNESS WHEREOF, the delegates of the Members of the International Telecommunication Union named below have, on behalf of their respective competent authorities, signed one copy of the present Final Acts in the Arabic, Chinese, English, French, Russian and Spanish languages. This copy shall remain in the archives of the Union. The Secretary-General shall forward one certified copy to each Member of the International Telecommunication Union.

Done at Melbourne, 9 December 1988.

* or recognized private operating agency(ies)

APPENDIX 1

General Provisions Concerning Accounting

1. *Accounting rates*

1.1 For each applicable service in a given relation, administrations* shall by mutual agreement establish and revise accounting rates to be applied between them, taking into account the Recommendations of the CCITT and trends in the cost of providing the specific telecommunication service, and shall divide such rates into terminal shares payable to the administrations* of terminal countries, and where appropriate, into transit shares payable to the administrations* of transit countries.

1.2 Alternatively, in traffic relations where CCITT cost studies can be used as a basis, the accounting rate may be determined in accordance with the following method:

- a) administrations* shall establish and revise their terminal and transit shares taking into account the Recommendations of the CCITT;
- b) the accounting rate shall be the sum of the terminal shares and any transit shares.

1.3 When one or more administrations* acquire, either by flat rate remuneration or other arrangements, the right to utilize a part of the circuit and/or installations of another administration*, the former have the right to establish their share as mentioned in 1.1 and 1.2 above, for this part of the relation.

1.4 In cases where one or more routes have been established by agreement between administrations* and where traffic is diverted unilaterally by the administration* of origin to a route which has not been agreed with the administration* of destination, the terminal shares payable to the administration* of destination shall be the same as would have been due to it had the traffic been routed over the agreed primary route and the transit costs

* or recognized private operating agency(ies)

are borne by the administration* of origin, unless the administration* of destination is prepared to agree to a different share.

1.5 In cases where the traffic is routed via a transit point without authorization and/or agreement to the transit share, the transit administration* has the right to set the level of the transit share to be included in the international accounts.

1.6 Where an administration* has a duty or fiscal tax levied on its accounting rate shares or other remunerations, it shall not in turn impose any such duty or fiscal tax on other administrations* .

2. *Establishment of accounts*

2.1 Unless otherwise agreed, the administrations* responsible for collecting the charges shall establish a monthly account showing all the amounts due and send it to the administrations* concerned.

2.2 The accounts shall be sent as promptly as possible and, except in cases of force majeure, before the end of the third month following that to which they relate.

2.3 In principle an account shall be considered as accepted without the need for specific notification of acceptance to the administration* which sent it.

2.4 However, any administration* has the right to question the contents of an account for a period of two calendar months after the receipt of the account, but only to the extent necessary to bring any differences within mutually agreed limits.

2.5 In relations where there are no special agreements, a quarterly settlement statement showing the balances of the monthly accounts for the period to which it relates shall be prepared as soon as possible by the creditor administration* and shall be sent in duplicate to the debtor administration*, which, after verification, shall return one of the copies endorsed with its acceptance.

* or recognized private operating agency(ies)

2.6 In indirect relations where a transit administration* acts as an accounting intermediary between two terminal points, it shall include accounting data for transit traffic in the relevant outgoing traffic account to administrations* beyond it in the routing sequence as soon as possible after receiving that data from the originating administration*.

3. *Settlement of balances of accounts*

3.1 *Choice of the currency of payment*

3.1.1 The payment of balances of international telecommunication accounts shall be made in the currency selected by the creditor after consultation with the debtor. In the event of disagreement, the choice of the creditor shall prevail in all cases subject to the provisions in 3.1.2 below. If the creditor does not specify a currency, the choice shall rest with the debtor.

3.1.2 If a creditor selects a currency with a value fixed unilaterally or a currency the equivalent value of which is to be determined by its relationship to a currency with a value also fixed unilaterally, the use of the selected currency must be acceptable to the debtor.

3.2 *Determination of the amount of payment*

3.2.1 The amount of the payment in the selected currency, as determined below, shall be equivalent in value to the balance of the account.

3.2.2 If the balance of the account is expressed in the monetary unit of the IMF, the amount of the selected currency shall be determined by the relationship in effect on the day before payment, or by the latest relationship published by the IMF, between the monetary unit of the IMF and the selected currency.

3.2.3 However, if the relationship of the monetary unit of the IMF to the selected currency has not been published, the amount of the balance of account shall, at a first stage, be converted into a currency for which a relationship has been published by the IMF, using the relationship in effect on the day before payment or the latest published relationship. The amount thus obtained shall, at a second stage, be converted into the equivalent value of the selected currency,

* or recognized private operating agency(ies)

using the closing rate in effect on the day prior to payment or the most recent rate quoted on the official or generally accepted foreign exchange market of the main financial centre of the debtor country.

3.2.4 If the balance of the account is expressed in gold francs, the amount shall, in the absence of special arrangements, be converted into the monetary unit of the IMF in accordance with the provisions of section 6.3 of the Regulations. The amount of payment shall then be determined in compliance with the provisions of 3.2.2. above.

3.2.5 If, in accordance with a special arrangement, the balance of the account is expressed neither in the monetary unit of the IMF nor in gold francs, the payment shall also be the subject of this special arrangement and:

- a) if the selected currency is the same as the currency of the balance of account, the amount of the selected currency shall be the amount of the balance of account;
- b) if the selected currency for payment is different from the currency in which the balance is expressed, the amount shall be determined by converting the balance of account to its equivalent value in the selected currency in accordance with the provisions of 3.2.3 above.

3.3 *Payment of balances*

3.3.1 Payment of balances of account shall be effected as promptly as possible, but in no case later than two calendar months after the day on which the settlement statement is despatched by the creditor administration*. Beyond this period, the creditor administration* may, subject to prior notification in the form of a final demand for payment, and unless otherwise agreed, charge interest at a rate of up to 6% per annum, reckoned from the day following the date of expiry of the said period.

3.3.2 The payment due on a settlement statement shall not be delayed pending settlement of a query on that account. Adjustments which are later agreed shall be included in a subsequent account.

* or recognized private operating agency(ies)

3.3.3 On the date of payment, the debtor shall transmit the amount of the selected currency as computed above by a bank cheque, transfer or any other means acceptable to the debtor and the creditor. If the creditor expresses no preference, the choice shall fall to the debtor.

3.3.4 The payment charges imposed in the debtor country (taxes, clearing charges, commissions, etc.) shall be borne by the debtor. Any such charges imposed in the creditor country, including payment charges imposed by intermediate banks in third countries, shall be borne by the creditor.

3.4 *Additional provisions*

3.4.1 Provided the periods of payment are observed, administrations* may by mutual agreement settle their balances of various kinds by offsetting:

- credits and debits in their relations with other administrations*;
and/or
- debts arising from postal services, if appropriate.

3.4.2 If, between the time the remittance (bank transfer, cheques, etc.) is effected and the time the creditor is in receipt of that remittance (account credited, cheque encashed, etc.), a variation occurs in the equivalent value of the selected currency calculated as indicated in paragraph 3.2, and if the difference resulting from such variations exceeds 5% of the amount due as calculated following such variations, the total difference shall be shared equally between debtor and creditor.

3.4.3 If there should be a radical change in the international monetary system which invalidates or makes inappropriate one or more of the foregoing paragraphs, administrations* are free to adopt, by mutual agreement, a different monetary basis and/or different procedures for the settlement of balances of accounts, pending a revision of the above provisions.

* or recognized private operating agency(ies)

APPENDIX 2

Additional Provisions Relating to Maritime Telecommunications

1. *General*

The provisions contained in Article 6 and Appendix 1, taking into account the relevant CCITT Recommendations, shall also apply to maritime telecommunications in so far as the following provisions do not provide otherwise.

2. *Accounting authority*

2.1 Charges for maritime telecommunications in the maritime mobile service and the maritime mobile-satellite service shall in principle, and subject to national law and practice, be collected from the maritime mobile station licensee:

- a) by the administration that has issued the licence; or
- b) by a recognized private operating agency; or
- c) by any other entity or entities designated for this purpose by the administration referred to in a) above.

2.2 The administration or the recognized private operating agency or the designated entity or entities listed in paragraph 2.1 are referred to in this Appendix as the “accounting authority”.

2.3 References to administration* contained in Article 6 and Appendix 1 shall be read as “accounting authority” when applying the provisions of Article 6 and Appendix 1 to maritime telecommunications.

2.4 Members shall designate their accounting authority or authorities for the purposes of implementing this Appendix and notify their names, identification codes and addresses to the Secretary-General for inclusion in the List of Ship

* or recognized private operating agency(ies)

Stations; the number of such names and addresses shall be limited taking into account the relevant CCITT Recommendations.

3. *Establishment of accounts*

3.1 In principle, an account shall be considered as accepted without the need for specific notification of acceptance to the accounting authority that sent it.

3.2 However, any accounting authority has the right to question the contents of an account for a period of six calendar months after dispatch of the account.

4. *Settlement of balances of account*

4.1 All international maritime telecommunication accounts shall be paid by the accounting authority without delay and in any case within six calendar months after dispatch of the account, except where the settlement of accounts is undertaken in accordance with paragraph 4.3 below.

4.2 If international maritime telecommunication accounts remain unpaid after six calendar months, the administration that has licensed the mobile station shall, on request, take all possible steps, within the limits of applicable national law, to ensure settlement of the accounts from the licensee.

4.3 If the period between the date of dispatch and receipt exceeds one month, the receiving accounting authority should at once notify the originating accounting authority that queries and payments may be delayed. The delay shall, however, not exceed three calendar months in respect of payment, or five calendar months in respect of queries, both periods commencing from the date of receipt of the account.

4.4 The debtor accounting authority may refuse the settlement and adjustment of accounts presented more than eighteen calendar months after the date of the traffic to which the accounts relate.

APPENDIX 3

Service and Privilege Telecommunications

1. *Service telecommunications*

1.1 Administrations* may provide service telecommunications free of charge.

1.2 Administrations* may in principle forego inclusion of service telecommunications in international accounting, under the relevant provisions of the International Telecommunication Convention and the present Regulations, having due regard for the need for reciprocal arrangements.

2. *Privilege telecommunications*

Administrations* may provide privilege telecommunications free of charge, and accordingly may forego the inclusion of such classes of telecommunication in international accounting, under the relevant provisions of the International Telecommunication Convention and the present Regulations.

3. *Applicable provisions*

The general operational, charging and accounting principles applicable to service and privilege telecommunications should take account of the relevant CCITT Recommendations.

* or recognized private operating agency(ies)

FINAL PROTOCOL

FINAL PROTOCOL*

At the time of signing the Final Acts of the World Administrative Telegraph and Telephone Conference (Melbourne, 1988), the undersigned delegates take note of the following statements made by signatory delegations.

No. 1

Original: French

For the Republic of Mali:

In signing the Final Acts of the World Administrative Telegraph and Telephone Conference (Melbourne, 1988), the Delegation of the Republic of Mali formally declares that it reserves for its Government the right to take any action in conformity with the Constitution, the laws and the international commitments of the Republic of Mali which it may consider or deem to be necessary or useful for the purpose of protecting and safeguarding its national rights and interests should any Member State of the Union fail in any way to comply with the provisions contained in the present Regulations which complement the 1982 Nairobi Convention.

It also reserves for its Government the right not to accept the consequences of any reservations made by other contracting parties which *inter alia* might give rise to an increase in its contributory share to the expenditure of the Union, or which might jeopardize the smooth and efficient functioning of the telecommunication services of the Republic of Mali.

Finally, the Delegation of the Republic of Mali dissociates itself from any action which in any way results in the deregulation of telecommunications.

* *Note by the General Secretariat:* The texts of the Final Protocol are shown in the chronological order of their deposit. In the Table of Contents these texts are grouped in the alphabetical order of country names.

The above-mentioned Delegations to the World Administrative Telegraph and Telephone Conference (Melbourne, 1988), declare that the signature and possible ratification by their respective Governments of the Final Acts of WATTC (Melbourne, 1988) are not valid with respect to the Zionist Entity under the name of the so-called Israel and in no way whatsoever imply its recognition.

No. 39

Original: English

For the United States of America:

I

The United States of America formally declares that it does not, by signature of these Telecommunication Regulations, nor by any subsequent approval thereof:

- a) accept any obligation to enforce any provision of the domestic law or regulations of any other Member;
- b) endorse, in any way, domestic procedures of other Members which would require approval for providers of telecommunication services and services dependent on telecommunication transport seeking to do business outside the United States of America;
- c) accept any obligation in respect of the application of any provision of these Regulations to service within the United States with respect to telecommunication services between the United States, on the one hand, and Canada, Mexico, and Saint-Pierre and Miquelon Islands, on the other hand, and to the rates applicable to such services;
- d) accept any obligation in respect of the application of any provision of these Regulations to services other than public correspondence services.

II

It is the understanding of the United States of America that:

- a) the Recommendations of the International Telegraph and Telephone Consultative Committee are produced for voluntary consideration by, among others, providers of international telecommunication services and manufacturers of telecommunications equipment;

- b) its rights and obligations are determined by the Telegraph and Telephone Regulations (1973) among Members party thereto, until the United States and such Members express their consent to be bound by these Telecommunication Regulations in accordance with the provisions of the basic instrument of the International Communication Union to which the Member is a party.

III

The United States of America disassociates itself from Conference Opinion No. 1.

For the United Kingdom of Great Britain and Northern Ireland:

In signing these Regulations, the Delegation of the United Kingdom of Great Britain and Northern Ireland wishes to reaffirm its Government's commitment to the development of competition in the provision of international telecommunication infrastructure and services. It believes such competition to be in the interest of telecommunications users, and economic development generally. Every effort should be made, where practicable, to meet the reasonable preferences of customers.

In implementing the provisions of the Regulations, the Government of the United Kingdom of Great Britain and Northern Ireland intends to be guided, as appropriate, by these principles. It wishes, in particular, to disassociate itself from those parts of Opinion No. 1 which it believes may suggest views contrary to these principles.

Original: French

For the Socialist Republic of Romania:

In signing the Final Acts of the present World Administrative Telegraph and Telephone Conference, the Delegation of the Socialist Republic of Romania reserves for its Government the right to take any action it may consider necessary for the purpose of safeguarding its interests should the reservations made by other countries jeopardize its telecommunication services.

No. 54

Original: English

For the Yemen People's Democratic Republic:

The Delegation of the Yemen People's Democratic Republic to the World Administrative Telegraph and Telephone Conference (Melbourne, 1988) declares that its Government reserves the right to take all necessary measures to safeguard its interests should reservations by other delegations or any failure to comply with these Regulations jeopardize the satisfactory operation of its telecommunication services.

No. 55

Original: Spanish

For Spain:

With reference to the reservations made by a number of delegations in connection with the conditions required for the provision of international telecommunication services, the Delegation of Spain at the World Administrative Telegraph and Telephone Conference (Melbourne, 1988) declares that such reservations will under no circumstances constitute a valid argument for the avoidance of the application of Spanish national law on the part of any entity which directly or indirectly intends to provide such services on the territory of Spain or via the Spanish telecommunication network.

No. 56

Original: Spanish

For Mexico:

In view of the reservations made by various countries in connection with the decisions adopted by this Conference, the Delegation of Mexico reserves for its Government the right to take any action it may consider necessary to safeguard its interests if other Members should fail to comply with the provisions of the Final Acts or if the reservations made by them should jeopardize its telecommunication services.

No. 57

Original: English

For the State of Israel:

1. The Declaration made by certain delegations in No. 38 of the Final Protocol, being in flagrant contradiction with the principles and purposes of the International Telecommunication Union and, therefore, devoid of any legal validity, the Government of Israel wishes to put on record that it rejects these declarations outright and will proceed on the assumption that they can have no validity with respect to the rights and duties of any Member State of the International Telecommunication Union.

(FP-57)

– 52 –

In any case, the Government of Israel will avail itself of its rights to safeguard its interests should the Governments of those delegations in any way violate any of the provisions of the Convention, or the Annexes, Protocols or Regulations attached thereto, or the Final Acts of this Conference.

The Delegation of Israel further notes that Declaration No. 38 does not refer to the State of Israel by its full and correct name. As such it is totally inadmissible and must be repudiated as a violation of recognized rules of international behaviour.

2. Furthermore, after noting various other declarations already deposited, the Delegation of the State of Israel reserves for its Government the right to take any action it deems necessary to protect its interests and to safeguard the operation of its telecommunication services should they be affected by the decisions of this Conference or by the reservations made by other delegations.

No. 58

For Malaysia:

The Delegation of Malaysia hereby and, in particular with respect to the reservations made by other delegations in Document 122:

1. reserves for its Government the right to take such action as it may deem necessary to safeguard its interests should certain Members not share in defraying the expenses of the Union, or should any Member fail in any other way to comply with the requirements of the International Telecommunication Regulations, or should reservations by other countries jeopardize its telecommunication services;
2. declares that the signing of these Regulations by the Delegation of Malaysia, is not valid with respect to the Member appearing under the name of Israel, and in no way implies its recognition.

For the Republic of Djibouti:

In signing the Final Acts of the World Administrative Telegraph and Telephone Conference (Melbourne, 1988), the Delegation of Djibouti reserves for its Government the right to take any action which it may consider necessary for the purpose of safeguarding its interests if any Member should fail to meet the obligations laid down in the International Telecommunication Regulations or if the reservations made by any country should jeopardize the efficient operation of its telecommunication services.

Furthermore, in its relations with other Members, administrations* or any other entity, it declares that its Government will not accept any provision in the present Regulations, the applications of which might jeopardize its interests and which might interfere with the exercise of its sovereign right to regulate telecommunications as a whole within its territory.

* or recognized private operating agency(ies)

Finally, the Delegation of the Republic of Djibouti formally declares on behalf of its Government that its country will not accept any obligation in connection with the application of any of the provisions relating to special arrangements which are contained in the present Regulations or any other provision which would involve the establishment within its territory of telecommunication systems, networks or other services, including any other corresponding telecommunication transport facility, other than its own telecommunication facilities and services.

For the Islamic Republic of Pakistan:

IN THE NAME OF GOD ALMIGHTY.

In signing the Final Acts of the World Administrative Telegraph and Telephone Conference (Melbourne, 1988) and having noted with concern the reservations made by various delegations in Document 122, the Delegation of the Islamic Republic of Pakistan reserves the right of its Government to take necessary steps to protect its interests, should any other Member or administration either reserve its position on any of the provisions of the International Telecommunication Regulations finalized at the World Administrative Telegraph and Telephone Conference (Melbourne, 1988), or operate any telecommunication service or facility in contradiction of any provisions in these Regulations.

For Chile:

Having taken note of the declarations made by other countries, the Delegation of Chile, in signing the Final Acts of the World Administrative Telegraph and Telephone Conference (Melbourne, 1988), reserves for its Government the right:

- a) to accept or reject all or any of the provisions of the International Telecommunication Regulations whenever it considers that those provisions might affect its national or international interests or the sovereign rights enshrined in its Constitution;
- b) to take any action which it may consider necessary to safeguard its interests should other countries fail to observe the provisions of the International Telecommunication Regulations.

For the People's Republic of Poland:

In the light of the declarations formulated in Document 122, the Delegation of the People's Republic of Poland reserves for its Government the right if necessary to take appropriate action to safeguard its sovereign rights and interests in the field of telecommunications should any other Member, administration or recognized private operating agency interpret the International Telecommunication Regulations in such a way as to jeopardize those rights and interests.

No. 73

Original: English

For the Kingdom of the Netherlands:

The Delegation of the Kingdom of the Netherlands has accepted the Regulations set at the World Administrative Telegraph and Telephone Conference (Melbourne, 1988) because it sees these Regulations as a balanced package serving the harmonious and efficient development, operation and use of telecommunications world-wide.

Noting that several Members of the Union have made reservations on their position towards the principles and provisions with regard to special arrangements contained in the Regulations which have consequences on the balanced contents of these Regulations, the Delegation of the Kingdom of the Netherlands therefore formally declares that it does not endorse in any way procedures requiring approval for providers of telecommunication services and services dependent on telecommunication transport in those Member countries.
