

FAQs: Programmable Controllers

1. [I don't see ICS 3-1978 on your website. How can I obtain a copy?](#)

I don't see ICS 3-1978 on your website. How can I obtain a copy? This standard has been rescinded in favor of the IEC 1131 series of standards on programmable controllers. NEMA members felt that having a single International Electrotechnical Commission programmable controller standard rather than many national standards would better suit the marketplace.
