Results of Meeting

1. Opening Remarks

John Lohmeyer, the T10 Chair, called the meeting to order at 9:00 a.m., Thursday November 2, 2000. He thanked Larry Lamers of Adaptec for hosting the meeting.

John said that NCITS Subgroup Membership forms and the T10 Mailing Subscription form were available from the head table. He said that people should use the NCITS forms to insure the NCITS Secretariat has the latest membership information. These forms should be mailed directly to the NCITS Secretariat.

As is customary, the people attending introduced themselves and a copy of the attendance list was circulated. Copies of the draft agenda and general information on T10 were made available to those attending.

2. Approval of Agenda

The draft agenda was approved with the following additions/changes:

3. Attendance and Membership

The membership requirements were reviewed. NCITS rules permit one vote per organization. An individual from a new organization must attend at least one T10 plenary meeting as an Observer. He/she may apply for voting membership at this meeting, which becomes effective following adjournment of the meeting. Voting privileges begin upon receipt by the NCITS Secretariat of applicable fees for the membership year.

To maintain membership, organizations must pay the NCITS Service Fee (\$800), which includes the ANSI International Program Fee.

John briefly discussed the mailing fees. Complete pricing information is contained in the 2000 membership form (available at ftp://ftp.t10.org/t10/mem_form.txt).

There are also minimum attendance requirements to maintain voting membership on T10. If a member organization fails to attend two of the last three T10 meetings, they are warned that failing to attend the next T10 meeting would result in their membership being terminated.

The Chair said he had sent letters to 14 people from 7 organizations informing them that their membership was in jeopardy due to non-attendance (see 00-029r0) and that their membership would be terminated if they did not attend this meeting. Subsequent to distributing the jeopardy letters, the NCITS Secretariat clarified their interpretation of the jeopardy rules with regard to new organizations. Consequently, John reported that Nishan Systems is not in jeopardy as had been previously indicated. The following organizations were in attendance jeopardy:

Dell Computer
General Dynamics
Honda Connectors
Iomega Corp.
Panasonic Technologies, Inc.
The JPM Co.

All of these organizations were present except:

The JPM Co.

The organizations in attendance jeopardy that failed to attend were terminated (i.e., the principal member was changed to observer status and the first alternate member, if any, was dropped; additional alternates, if any, were changed to observers).

At the October 18th NCITS meeting, NCITS directed the T10 chair to only allow one vote for AMP-Madison-Tyco unless they can prove that they are separate organizations. The committee discussed the decision. John noted that the organizations had decided that Chuck Brill would be the principal member and that the Madison representatives would become additional alternate members.

The following organizations requested new (or reinstated) membership:

Amphenol Interconnect
Congruent Software

The T10 membership during the meeting was 41 organizations unchanged from 41 organizations following the last meeting. Enclosure (1) is the list of the people present at the meeting and enclosure (2) is the current T10 membership list.

The following organizations requested new membership following the adjournment of the meeting:

Cisco Systems

T10 membership following the meeting was 42 members.

4. Approval of Minutes - September '00 Meeting - Huntington Beach, CA (T10/00-308r1)

The minutes were approved as written.

5. Document Distribution

Members who have any problems with their mailing subscription should deal directly with Monica Vago (mvago@itic.org) (202) 626-5741.

John Lohmeyer requested that all documents for the next mailing be in his hands in electronic format by 10:30 a.m. on Thursday November 9, 2000. Documents received after this time may go into a subsequent mailing.

John reminded the committee of the requirements for document submission. Since T10 meets its document retention requirements by preparing mailings, documents included in the mailing must be suitable for archiving. This means that native-format and/or Portable Document Format (PDF) electronic originals with proper identification must be submitted.

The electronic copies can be sent directly to John by email (at lohmeyer@t10.org), or they can be transferred by ftp protocol to ftp.t10.org and placed in the /incoming directory. In the latter case, please also send email to John informing him of the file name and location of the file.

Minutes are available on the T10 World Wide Web page (see below), and are distributed to the T10 Reflector.

To be added to the T10 Reflector, send an email to majordomo@t10.org with the line 'subscribe t10' in the message body.

The NCITS Secretariat maintains a World Wide Web page at <http://www.ncits.org/>. LSI Logic maintains a web site on behalf of T10 on a server donated by the SCSI Trade Association at:

<http://www.t10.org/>

The current document register is enclosure (3). The T10 document register is also available at:

<ftp://ftp.t10.org/t10/dr.txt>

6. Call for Patents

This is a regular agenda item to identify any potential patent issues with developing standards and technical reports.

A document is available from ANSI, "Procedures for the Development and Coordination of American National Standards", at no charge. This document is also on the WWW at http://www.ncits.org/help/ansi_sdo.html. Section 1.2.11 contains the ANSI patent policy. Amy Marasco manages patent issues for ANSI and can be contacted at amarasco@ansi.org or 212-642-4954. Gene Milligan has prepared a useful "Handy dandy Technical Committee's Patents Guide", which is available at <ftp://ftp.t10.org/t10/document.99/99-291r0.pdf>.

John presented a foil containing a summary of the ANSI patent policy that Gary Robinson had sent to John. The summary is also included on the Rules and Procedures (plus Patent Information) page on the T10 web site.

John asked that anyone who knows of applicable patents contact him. There were no responses to the call for patents.

7. Review of Old Action Items

- 399) Gene Milligan will create the T10 style guide document and MSword templates. *Carryover*
- 400) John Lohmeyer will notify NCITS that T10 has requested that NCITS not automatically adopt international standards in our subject area as American National Standards. *Complete*

8. Project Status Reports

8.1 Project Status Summary and NCITS Liaison [Lohmeyer]

John Lohmeyer gave an oral report on his meetings at NCITS and provided an electronic version in 00-394r0.

John Lohmeyer said that the current T10 project status summary was included in the T10 Information Packages distributed prior to the meeting and will be included in the mailing as usual.

8.2 SCSI Fibre Channel Protocol - 2 (FCP-2) {Project 1144-D} [Snively]

8.15 SCSI Primary Commands - 3 (SPC-3) {Project 1416-D} [Weber]

Ralph Weber reported that progress on SPC-3 has been delayed by at least four months as a result of the difficulties encountered in resolving comments from the SPC-2 letter ballot. If no further schedule slips are encountered, SPC-3 will go to letter ballot in September 2002.

10.3.9 Proposed content for SPI-4 rev 1 (00-378r0) [Penokie]

Mark Evans moved that 00-378r0 be accepted as SPI-4 revision 1. Bill Galloway seconded the motion. John Lohmeyer noted that some technical changes would be adopted without the benefit of separate proposals if the motion is approved. George stated that he felt that no controversial issues were included in 00-378r0. Ed Gardner expressed the belief that document content will not be affected seriously by accepting 00-378r0. Bill Galloway noted that there are a small number of relatively minor technical changes that appear only in 00-378r0 and have not been approved in other proposals. The motion passed on a vote of 17:2:9:15=41.

10.4.2 Command Reference Number in SAM-2 (00-345r1) [Peterson]

Bob Snively moved that 00-345r1 be approved for inclusion in SAM-2. Gerry Houlder seconded the motion. Ed Gardner spoke against the motion stating that the architecture could not reasonably define the size of a command reference number. The motion passed on a vote of 24:4:0:13=41.

10.4.8 EXTENDED COPY: IPv4 target descriptor (00-398r1) [Peterson]

As Dave Peterson presented a proposal with revisions not presented to the working group (00-398r2), including the addition of a protocol identifier code value. Calls were made to remand the proposal to the working group for further review. Ralph Weber moved that the target descriptor type code described in 00-398r2 be identified for use with an IPv4 or IPv6 identifier as a target identifier. Bob Snively seconded the motion. It became clear that the motion was satisfying no one and Ralph withdrew it.

Bob Snively moved that 00-398r2 be approved for inclusion in SPC-2. Erich Oetting seconded the motion. John noted that because SPC-2 is a stabilized (in letter ballot) document a two-thirds vote is required. The motion failed on a vote of 4:7:18:12=41.

Bob Snively moved that 00-398r2 be approved for inclusion in SPC-3. Erich Oetting seconded the motion. The motion passed on a vote of 11:0:17:13=41.

12. Liaison Reports

12.1 T11 Liaison Report [Wanamaker]

Neil Wanamaker reported on the activities of the T11 committee and provided an electronic report that can be found in 00-419r0.

12.2 T13 Liaison Report [Milligan]

In the absence of Gene Milligan, no report was available.

12.3 SFF Industry Group [Allan]

Subsequent to the meeting, Dal Allan provided the following report:

Bill Ham described the need to describe SPI signaling in a similar manner to Fibre Channel, by specifying values for the transceiver, connector and cable. He also provided the results that can be achieved by swept frequency tests to illustrate cable glitches.

Chuck Brill did not submit the draft of HSSDC-2 as planned, but it should be available in January.

Jay Neer recommended a new project SFF-8416 be formed to specify the cable requirements for high speed applications.

Judith Lim explained that the SFF website is not yet on line because of problems with service provider PacBell, but plans to bring the server in house should resolve the situation.

12.4 IEEE 1394 [Johansson]

Peter Johansson gave an oral report and provided the following electronic report for the minutes:

Since the last liaison report in Huntington Beach, CA no significant events have occurred.

Current project status is summarized below:

IEEE P1394b BRC continues to meet to resolve comments. Recirculation ballot planned for first quarter, 2001.

IEEE P1394.1 Working group continues monthly meetings. Sponsor ballot planned for February, 2001.

IEEE P1394.3 Ballot closed Tuesday, October 31. Ballot response committee in formation. No BRC schedule available yet.

12.5 IEEE P1285 Status

John Lohmeyer reported that Martin Freeman requested the T10 chair's mailing address for a coordination document. He provided it and requested an electronic version of the document, but had received no response from Martin. Peter Johansson reported that a request for an extension of the completion date to March 2001 is expected to be approved.

12.6 SCSI Trade Association (STA) [Jones/Aloisi]

Paul Aloisi reported on the activities of STA and provided an electronic report that can be found in 00-421.

14.1 Authorization of Working Group Meetings

John noted that the working group meetings are required to operate under the same voting procedures as does T10 (that is, one vote per organization) and the results of a working group are not binding on the parent committee. Ad hoc groups should strive to achieve consensus prior to bringing issues to T10.

Erich Oetting moved that T10 authorize the T10-related meetings and events in the list above that had not previously been approved. Bill McFerrin seconded the motion. In the absence of any objections, the motion passed unanimously.

15. Adjournment

The meeting was adjourned at 12:20 p.m. on Thursday November 2, 2000.
