Results of Meeting

1. Opening Remarks

John Lohmeyer, the T10 Chair, called the meeting to order at 9:00 a.m., Thursday January 18, 2001. He thanked Ron Roberts of Adaptec for hosting the meeting.

John Lohmeyer reported that Gene Milligan had passed away shortly after the November meeting and asked that the committee observe a moment of silence in Gene's memory.

John said that NCITS Subgroup Membership forms and the T10 Mailing Subscription form were available from the head table. He said that people should use the NCITS forms to insure the NCITS Secretariat has the latest membership information. These forms should be mailed directly to the NCITS Secretariat.

As is customary, the people attending introduced themselves and a copy of the attendance list was circulated. Copies of the draft agenda and general information on T10 were made available to those attending.

2. Approval of Agenda

The draft agenda was approved with the following additions/changes:

- 10.1.1 Proposal for Ultra320 SCSI timing skew specification for SPI-4 (00-399r2) [Evans]
- 10.1.2 Task Status after PPR (00-403r1) [Galloway]
- 10.1.3 QAS Handshake Correction (01-031r0) [Galloway]
- 10.1.4 Additional Flow Control Timings (01-032r0) [Galloway]

The following agenda items were added/revised during the course of the meeting:

- 10.6 Five Year Reviews [Lohmeyer]
- 12.7 IETF SCSI over IP [Black]

3. Attendance and Membership

The membership requirements were reviewed. NCITS rules permit one vote per organization. An individual from a new organization must attend at least one T10 plenary meeting as an Observer. He/she may apply for voting membership at this meeting, which becomes effective following adjournment of the meeting. Voting privileges begin upon receipt by the NCITS Secretariat of applicable fees for the membership year.

To maintain membership, organizations must pay the NCITS Service Fee (\$800), which includes the ANSI International Program Fee.

John briefly discussed the mailing fees. Complete pricing information is contained in the 2001 membership form (available at ftp://ftp.t10.org/t10/mem_form.txt).

There are also minimum attendance requirements to maintain voting membership on T10. If a member organization fails to attend two of the last three T10 meetings, they are warned that failing to attend the next T10 meeting would result in their membership being terminated.

The Chair said he had sent letters to 10 people from 4 organizations informing them that their membership was in jeopardy due to non-attendance (see 00-032r0) and that their membership would be terminated if they did not attend this meeting. The following organizations were in attendance jeopardy:

Dell Computer
Hewlett Packard Co.
Hitachi Cable Manchester
Maxtor Corp.

All of these organizations were present.

The organizations in attendance jeopardy that failed to attend were terminated (i.e., the principal member was changed to observer status and the first alternate member, if any, was dropped; additional alternates, if any, were changed to observers).

The following organizations requested new (or reinstated) membership:

Intel Corp.

The T10 membership during the meeting was 43 organizations up from 42 organizations following the last meeting. Enclosure (1) is the list of the people present at the meeting and enclosure (2) is the current T10 membership list.

The following organizations requested new membership following the adjournment of the meeting:

Emulex
Microsoft Corp.
Troika Networks, Inc.

T10 membership following the meeting was 46 members.

4. Approval of Minutes - November '00 Meeting - Seaside, CA (T10/00-375r1)

The minutes were approved as written.

5. Document Distribution

Members who have any problems with their mailing subscription should deal directly with Monica Vago (mvago@itic.org) (202) 626-5741.

John Lohmeyer requested that all documents for the next mailing be in his hands in electronic format by 10:30 a.m. on Thursday January 25, 2001. Documents received after this time may go into a subsequent mailing.

John reminded the committee of the requirements for document submission. Since T10 meets its document retention requirements by preparing mailings, documents included in the mailing must be suitable for archiving. This means that native-format and/or Portable Document Format (PDF) electronic originals with proper identification must be submitted.

The electronic copies can be sent directly to John by email (at lohmeyer@t10.org), or they can be transferred by ftp protocol to ftp.t10.org and placed in the /incoming directory. In the latter case, please also send email to John informing him of the file name and location of the file.

Minutes are available on the T10 World Wide Web page (see below), and are distributed to the T10 Reflector.

To be added to the T10 Reflector, send an email to majordomo@t10.org with the line 'subscribe t10' in the message body.

6. Call for Patents

This is a regular agenda item to identify any potential patent issues with developing standards and technical reports.

A document is available from ANSI, "Procedures for the Development and Coordination of American National Standards", at no charge. This document is also on the WWW at http://www.ncits.org/help/ansi_sdo.html. Section 1.2.11 contains the ANSI patent policy. Amy Marasco manages patent issues for ANSI and can be contacted at amarasco@ansi.org or 212-642-4954. Gene Milligan prepared a useful "Handy dandy Technical Committee's Patents Guide", which is available at <ftp://ftp.t10.org/t10/document.99/99-291r0.pdf>.

John presented a foil containing a summary of the ANSI patent policy that Gary Robinson had sent to John. The summary is also included on the Rules and Procedures (plus Patent Information) page on the T10 web site.

John asked that anyone who knows of applicable patents contact him.

Cris Simpson read to the committee the contents of 01-041r0, a statement of the Intel patent policy.

Neil Wanamaker noted a letter concerning a patent that applies to FCP-2 has been transmitted to the chair (01-049r0).

John Lohmeyer indicated that a letter will be forthcoming from LSI Logic regarding their patent position on SDV.

8.3 SCSI Architecture Model - 2 (SAM-2) {Project 1157-D} [Weber]

Ralph Weber reported that SAM-2 revision 15 was distributed in the last mailing. Since no proposals changing SAM-2 are on the agenda for this meeting, there will be no new revision following this meeting.

8.4 SCSI Enclosure Services Amendment #1 (SES AM1) {Project 1212-M} [Elliott]

John Lohmeyer reported that SES AM1 probably has been approved by BSR. He said he will verify the status and update the project database.

8.5 SCSI Primary Commands - 2 (SPC-2) Status {Project 1236-D} [Weber]

Ralph Weber reported that resolution of the SPC-2 letter ballot comments is complete and ready for careful review in 00-267r6, which will be in the next mailing. A vote to accept the letter ballot resolution and forward SPC-2 will be requested in March.

Bill McFerrin reported on the activities of the MMC-3 working group (minutes in 01-050). He noted that forwarding of MMC-3 will be held up until March because of some late breaking changes. He noted that revisions 5, 6, and 7 will be in the next mailing.

8.8 Reduced MultiMedia Command Set (RMC) {Project 1364-D} [McFerrin]

Bill McFerrin reported that RMC development is dormant at this time so that work on MMC-3 can proceed.

8.9 SCSI Parallel Interface - 4 (SPI-4) {Project 1365-D} [Penokie]

George Penokie reported on the activities of the SPI-4 working group (minutes in 01-006). SPI-4 revision 2 will be in this mailing and contains all the proposals accepted at the November meeting. The SRP working group also met in December in Redmond, WA (minutes in 01-009) and in Houston, TX in January (minutes in 00-024). He noted that the SRP working group is trying to hold an additional meeting in February. Revision 3 will be available for the mailing.

8.15 SCSI Primary Commands - 3 (SPC-3) {Project 1416-D} [Weber]

Ralph Weber reported that progress on SPC-3 has been delayed by about six months as a result of the difficulties encountered in resolving comments from the SPC-2 letter ballot. If no further schedule slips are encountered, SPC-3 will go to letter ballot in November 2002. A new schedule for SPC-3 will be presented in March.

10.2.5 SPC-3 Access Controls LUN conflicts due to transport IDs (01-026r0) [Elliott]

Rob Elliott described the proposal making the Fibre Channel Transport ID be just the node ID. Bob Snively raised concerns that the node ID is very poorly defined.

Rob Elliott moved that option 1 described in 01-026r0 be approved for inclusion in SPC-3. Bill Galloway seconded the motion.

The group discussed the ambiguous use of node ID.

By unanimous consent of the committee, voting on the motion was deferred until 10.4 and 10.5 were completed.

After reviewing and discussing the proposal, Bob Snively stated that he could support option 2 in 01-026r0.

Rob and Bob agreed on the contents of a revised proposal, 01-026r1, changing node ID (or node name) to port ID (or port name). Bob made a friendly amendment to change 01-026r0 to 01-026r1. The amended motion passed on a vote 18:1:13:11=43.

John Scheible reported that IBM desires that all the SSA standards be reaffirmed. John Lohmeyer reported that no newer versions are yet available for SAM, CAM, and FCP.

Bob Snively moved that all six standards be reaffirmed but withdrew the motion when Mark Evans asked to divide the question. The committee agreed that action on the reaffirmation would be taken in March.

John reported that additional information is available in 01-037r0.

12.3 SFF Industry Group [Allan]

Dal Allan provided the following report:

SFF Committee Report January 2001

Two proposals for 1.8" form factor drives were received.

- The proposal from Toshiba is a variation on the current PCMCIA drives (the connector was replaced and uses a native ATA pinout) for use as an internal drive. It operates at 3.3V.
- The proposal from IBM, Fujitsu and Hitachi is a shrinkage of the 2.5" drive and retains the same connector. The size and placement of mounting holes has changed from 2.5" and it operates at 5V.

Alvin Cox distributed the first revision of SFF-8460 (HSS Backplane Design Guidelines) over the reflector and was complimented on the content during the review by the working group.

Chuck Brill plans to submit the first draft of HSSDC-2 in time for the mailing.

The low speed people are encountering upon downloading specifications are due to problems at the ftp site maintained by Western Digital, which relocated all computer systems to a new facility in the 4Q.

12.4 IEEE 1394 [Johansson]

In the absence of Peter Johansson no report was made.

12.5 IEEE P1285 Status

Gary Robinson reviewed the history of the P1285 project and reported the IEEE has voted to not extend the P1285 project. John Lohmeyer stated that this item will be removed from future agendas. Bob Snively asked all present to inform T10 and T13 should the project be re-started.

12.7 IETF SCSI over IP [Black]

David Black reported on the activities of the IETF IP Storage working group, who held meetings co located with T10 this week. He noted the IETF IP Storage working group will not co locate with T10 in March due to the fact that IETF will be meeting in Minneapolis two weeks after the next T10 meeting. However, a co located meeting in May is possible and should be in the planning.

13. Review of Action Items

405) Bob Snively will announce the five year review of the standards identified in 01-037r0 on the T10 Reflector.

14.1 Authorization of Working Group Meetings

John noted that the working group meetings are required to operate under the same voting procedures as does T10 (that is, one vote per organization) and the results of a working group are not binding on the parent committee. Ad hoc groups should strive to achieve consensus prior to bringing issues to T10.

Erich Oetting moved that T10 authorize the T10-related meetings and events in the list above that had not previously been approved. Mark Evans seconded the motion. In the absence of any objections, the motion passed unanimously.

15. Adjournment

The meeting was adjourned at 11:50 a.m. on Thursday January 18, 2001.
