## Results of Meeting

### 1. Opening Remarks

John Lohmeyer, the T10 Chair, called the meeting to order at 9:00 a.m., Thursday May 6, 2004. He thanked Bob Snively of Brocade for hosting the meeting.

John said that INCITS subgroup membership forms and the T10 document subscription forms are available on the meeting web site. He said that people should use these forms to ensure the INCITS Secretariat has the latest membership information. These forms should be mailed directly to the INCITS Secretariat.

As is customary, the people attending introduced themselves. Attendance was taken electronically via the meeting web site.

### 2. Approval of Agenda

No additions/changes were made to the draft agenda.

John Lohmeyer moved and Ralph Weber seconded that the agenda be approved. In the absence of any objections, the motion passed unanimously.

No items were added/revised during the course of the meeting.

### 3. Attendance and Membership

The membership requirements were reviewed. INCITS rules permit one vote per organization. An individual from a new organization must attend two out of three consecutive plenary meetings. He/she may apply for voting membership the second meeting via a letter to the Chair of T10. The individual may begin voting at the beginning of his/her second meeting.

To maintain membership, organizations must pay the INCITS Service Fee (\$800).

John briefly discussed the mailing fees. Complete pricing information is contained in the 2004 membership form (available at ftp://ftp.t10.org/t10/mem\_form.txt).

There are also minimum attendance requirements to maintain voting membership on T10. If a member organization fails to attend two of the last three T10 meetings, they are warned that failing to attend the next T10 meeting would result in their membership being terminated.

The Chair said he had sent letters to 7 people from 3 organizations informing them that their membership was in jeopardy due to non-attendance (see 04-098r0) and that their membership would be terminated if they did not attend this meeting. The following organizations were in attendance jeopardy:

Cisco Systems, Inc.  
 General Dynamics  
 Microsoft Corp.

All the organizations in attendance jeopardy were present.

Had any of the organizations in jeopardy failed to attend the meeting, the members from that organization would have had their membership changed to non-voting status.

The AMCC membership was changed to advisory at the request of Paul von Stamwitz who has replaced Neil Wanmaker. This decreases the voting membership by one organization.

The following organizations became voting members of T10 at this meeting:

CNT  
 Dot Hill Systems Corp.

The T10 membership during the meeting was 39 organizations up from the 38 member organizations prior to the meeting. Enclosure (1) is the list of the people present at the meeting and enclosure (2) is the current T10 membership list.

John Lohmeyer reminded members that failure to vote on two out of the last three Letter Ballots also would result in membership jeopardy and then noted that no organizations are currently in Letter Ballot jeopardy.

Two organizations will be in letter ballot jeopardy if they do not return the next letter ballot (except that AMCC has changed their membership to advisory):

#### **4. Approval of Minutes - March 2004 Meeting - Dana Point, CA (T10/04-085r0)**

John Lohmeyer moved and Ralph Weber seconded that the minutes be approved. In the absence of any objections, the motion passed unanimously.

#### **5. Document Distribution**

Members who have any problems with their mailing subscription should deal directly with Parthenia Purnell (ppurnell@itic.org) (202) 626-5741. A subscription form is included on the meeting disk.

John Lohmeyer requested that all documents for the next mailing be uploaded to the T10 web site by 10:30 a.m. on Thursday May 13, 2004. Documents received after this time may go into a subsequent mailing.

John reminded the committee of the requirements for document submission. Since T10 meets its document retention requirements by preparing mailings, documents included in the mailing must be suitable for archiving. This means that native-format and/or Portable Document Format (PDF) electronic originals with proper identification must be submitted.

People can obtain T10 document numbers and revised T10 document numbers by filling out a web form at <http://www.t10.org/members/>. The assigned T10 document number will be sent to the requestor by e-mail. The requestor may then reply to this email, including the document to be posted as an attachment. The document will be automatically posted on the T10 web site.

T10 members can complete this entire process using their personal T10 password. John explained that members who do not know their password should surf to the above URL and click on the "forgot password" link to have their password sent to them via e-mail.

John noted that non-members can also use the above document number process, but their requests will require approval by an administrator.

Minutes are available on the T10 World Wide Web page (see below), and are distributed to the T10 Reflector.

To be added to the T10 Reflector, send an e-mail to [majordomo@t10.org](mailto:majordomo@t10.org) with the line 'subscribe t10' in the message body.

## 6. Call for Patents

John Lohmeyer explained that this is a regular agenda item to identify any potential patent issues with developing standards and technical reports.

A document is available from ANSI, "Procedures for the Development and Coordination of American National Standards", at no charge. This document is also on the WWW at [http://www.incits.org/help/ansi\\_sdo.html](http://www.incits.org/help/ansi_sdo.html). Section 1.2.11 contains the ANSI patent policy. Amy Marasco manages patent issues for ANSI and can be contacted at [amarasco@ansi.org](mailto:amarasco@ansi.org) or 212-642-4954. Gene Milligan prepared a useful "Handy dandy Technical Committee's Patents Guide", which is available at <ftp://ftp.t10.org/t10/document.99/99-291r0.pdf>.

John Lohmeyer presented a summary of the ANSI patent policy prepared by Gary Robinson. The summary is also included on the Rules and Procedures (plus Patent Information) page on the T10 web site.

Bob Sheffield reminded the committee that a statement of the Intel patent policy can be found in T10/01-041r0.

John asked that anyone who knows of other applicable patents to contact him.

There were no other responses to the call for patents other than those mentioned above.

## 7. Review of Old Action Items

- 545 David Black will ensure that RFCs are written defining URLs for SNMP, CIM over HTTP/HTTPS, and SSH. *Carry over.*
- 566 John Lohmeyer will forward 04-055r1 to INCITS for further processing as a new project proposal for SAM-4. *Complete.*
- 567 John Lohmeyer will notify INCITS that T10 recommends the reaffirmation of INCITS.131:1994 [R1999] (SCSI-2). *Complete.*
- 568 Gary Robinson will notify the JTC1/SC25 TAG that T10 reviewed project 1.25.13.11.27: FDIS 14776-452: SCSI SPC-2, and recommends that the JTC1/SC25 TAG vote to approve said FDIS. *Complete.*
- 569 Gary Robinson will notify the JTC1/SC25 TAG that T10 has recommended ISO/IEC 14776-411:1999, Information technology -- Small Computer System Interface-3 -- Part 411: SCSI-3 Architecture Model (SCSI-3 SAM) be confirmed and that the five questions be answered as shown in document T10/04-085 (the minutes of T10 meeting #60). *Complete.*
- 570 Gary Robinson will inform the JTC1/SC25 TAG that T10 has reviewed the new work item proposal, and recommends the NWIP for ATA/ATAPI-7 (T10/04-091r0) as a US contribution to JTC1/SC25 and to approve the NP to be issued by SC25, answering the 6 questions 'Yes' and naming Gary S. Robinson as project editor. *Complete.*

Regarding action item 545, David Black reported that SNMP URL draft is close to done. The DMTF has written an initial document for CIM over HTTP/HTTPS that has not been taken up by the IETF. In the mean time, the CIM port numbers should be used with HTTP/HTTPS. The SSH URL draft is in progress.

## 8. Project Status Reports

### 8.1 Project Status Summary and INCITS Liaison [Lohmeyer]

John Lohmeyer said that the current T10 project status summary was included on the meeting web site and will be included in the mailing as usual.

John said that he had presented the T10 Annual Report (04-113) to the INCITS Standards Development Board last week. He and Gary Robinson had also attended the INCITS TC Symposium and the Awards Banquet.

Rob Elliott won an INCITS Technical Excellence Award. Rob has served as Project Editor on the SCSI Block Commands - 2, the SCSI Enclosure Commands - 2, Serial Attached SCSI, and Serial Attached SCSI - 1.1. Rob was especially prodigious editing the Serial Attached SCSI standard, producing 27 revisions in 14 months! SAS began development in May 2002 and was published 18 months later in November 2003 with 464 well-written pages. Beyond SAS, Rob is one of the most active contributors to the work of T10 having submitted nearly 200 proposals since he joined the committee in 1998.

Gary Robinson won an INCITS Merit Award for many contributions to INCITS and the standards community for over 25 years. Some of the positions held by Gary include Chair of X3T9.3; International Representative for X3T9 and, later, International Representative for T10 and T11; member of the IEEE Registration Authority Committee; and member of the ANSI Standards Review Board. Gary was also a member of the committee that developed the original Ethernet standard.

Bob Snively won the INCITS Gene Milligan Award for Effective Committee Management. Bob began participating on the X3T9.2 task group in 1984. He has since participated on T10, T11, and various subgroups of these committees. He has been an active participant in the international program of work for both these groups. Bob has served as project editor for SCSI Enclosure Services and Fibre Channel Protocol. Bob is the current Chair of T11, the largest INCITS TC, with three active task groups. He has performed an excellent job managing T11 following the approved procedures in an exemplary fashion.

Ed Grivna (former T11 Vice Chair) and Craig Carlson (T11.3 Chair) also won awards. Ed's award was presented at the INCITS Awards Banquet and Craig's award will be presented at the next T11 meeting.

INCITS was especially responsive in listening to the gripes and needs of the Technical Committees. They promised prompt action to the issues that were disclosed during the course of the meetings.

INCITS asked for feed back on standards pricing. They are considering significantly raising the price of standards above today's \$18 PDF price.

### **8.1.1 INCITS Antitrust Guidelines**

All T10 members should be aware of the INCITS antitrust guidelines available at <http://www.incits.org/natrust.htm>.

John Lohmeyer moved that the September 2005 meeting in Vancouver, BC be approved. Mark Evans seconded the motion. John noted that this motion requires a two-thirds vote for approval per the Policy for T10 Plenary Meetings and Accompanying Meeting Weeks. The motion passed 26:1:11=39.

John Lohmeyer asked the group to review the proposed 2006 dates and organizations interested hosting one of the meetings in 2006 to contact him.

#### **14.1 Authorization of Working Group Meetings**

John noted that the working group meetings are required to operate under the same voting procedures as does T10 (that is, one vote per organization) and the results of a working group are not binding on the parent committee. Ad hoc groups should strive to achieve consensus prior to bringing issues to T10.

Jim Coomes moved that T10 authorize the T10-related meetings and events in the list above that had not previously been approved through the end of June 2004. Bob Nixon seconded the motion. In the absence of any objections, the motion passed unanimously.

#### **15. Adjournment**

John Lohmeyer moved and Ralph Weber seconded that the meeting be adjourned. In the absence of any objections, the motion passed unanimously. The meeting was adjourned at 11:35 a.m. on Thursday May 6, 2004.
